THE picture which serves as the Eighteenth Card of our Series is

# "The Gipsy Fortune-Teller,"

and we think there will be but one opinion as to the Artist's success in making it pleasingly, and yet effectively, tell its own story. We have no wish, however, to disguise the main purpose of its issuance, which is to inoffensively remind you that when a **COLD**, a **COUGH**, or a **SORE THROAT** interferes with your bodily comfort, and creates some anxiety as to consequences, you can obtain certain relief through DR. D. JAYNE'S EXPECTORANT, which will loosen the mucus, render expectoration easy, and heal inflamed parts. During the season when **BRONCHIAL** or **LUNG TROUBLES** are apt to prevail, much physical distress and strain may be saved, and in most cases all danger averted, by the intelligent use of the EXPECTORANT, which safely combines the best curative ingredients and the most efficient palliatives. **ASTHMA** is directly relieved by the EXPECTORANT, and the cause of the disease gradually overcome by its judicious use. **PLEURISY, INFLAMMATION OF THE LUNGS** and **LUNG FEVERS** are subdued when the EXPECTORANT is promptly resorted to, and used as directed, and so likewise is that most dangerous complaint—**CROUP**. It will save much suffering in cases of **WHOOPING COUGH**, and greatly shorten the duration of this affection. Old Friends who have proved their constancy, and Old Remedies whose merits have enabled them to outlive all competition, are surely the safest in emergencies, and, in the long run, generally the best to tie to.

**WHEN YOU ARE IN WANT** Of a useful Family Tonic, give DR. JAYNE'S TONIC VERMIFUGE a trial. It will, in connection with DR. JAYNE'S SANATIVE PILLS, where constipation prevails, cure the **DYSPEPSIA OF ADULTS**, Indigestion, Sour Stomach, and Oppression at the Pit of the Stomach, and it removes all the attending symptoms, such as Low Spirits, Headache, Heartburn, &c. This TONIC VERMIFUGE is especially a **CHILD'S TONIC**, restoring the proper action of the stomach and overcoming **GENERAL DEBILITY**, and it is sure to destroy **WORMS** and effectually remove all the worrying and distressing indications which these pests originate. It is also a good remedy to eradicate the **FEVER** and **AGUE** of children.
