Evidence of Positive Supremacy

There are forty-six manufacturers of sewing machines in America.

¶ How many can you name? How many did you ever hear of?

I One name comes to the mind of every woman immediately-the Singer-and there's a very good reason.

The Singer makes and sells as many machines in a year as all the other forty-five manufacturers combined.

I The Singer Sewing Machine is known as the best sewing machine in every country on the globe. There is a Singer store in every city of the world. Why?

I Because, when you buy a Singer you do not buy simply so much wood and steelyou buy the latest result of the longest and best experience.

Annual Tour, personally conducted, by C. H. Gattis, District Passenger Agent chaperoned by Mrs. C. H. Gattis, same being under their personal supervision, through the North and Canada, taking in all the principal and most attractive resorts in the East, leaving Raleigh September 1st, via Portsmouth, Norfoik, Old Point Comfort, up the historic Potomac to Washington, thence through Baltimore, Philadelphia and the scenic Lehigh valley to Niagara Falls. Toronto, taking in the Grand Toronto Exposition, through the Thousand Islands, down the St. Lawrence River to Montreal and Quebec, returning via Lake George and Lake Chemplain through Saratoga and Lake Chemplain through Saratoga and Albany to New York, where four days will be spent.

The cost of the trip will include rail-road steamship and Pullman fares, transfers, hotel accommodations, side trips, etc., as shown in itinerary—in fact will include practically every ne-cessary expense with the exception of a few meals en route and while in New York city, and is made at the lowest possible amount.

This route has been selected after the most careful consideration, giving the best advantage for sight-seeing at most interesting points. Sufficient ength of time will be spent at all stopover points for sight-seeing and all arrangements made for the pleasure and comfort of the party.

C. H. Gattis, District Passenger Agent will look after all necessary details, etc., for the comfort and pleasure of all, and this is assured as the Seaboard has had considerable expe-

Difficulties With Which a Young Actor

An actor's life, although often interesting and frequently useful, brought his wife and children to this country to live with him while he made his way here he was, after various ups and downs, engaged by Mr. Booth to play certain prominent parts. In "Talks In a Library" Mr. Laurence Hutton relates some of the difficulties with hands and pole navigated the small streams, and just as surely has our word "ship" come from the first improvement of that primitive craft. The etymology of the word tells us of the evolution of the craft.

When the superior mind of our Aryan as sestors conceived the idea which the young actor had to strug-

with Mr. Booth, with the single exception of Warde, was not as-sembled, and there could be but one or two rehearsals before the first performance. Warde had never even seen the play of "Othello" and had no idea how to dress ita very important item to a man who had little money to devote to

There were, of course, profes sional persons who could have fitted him out from wig to sandal, bu to those he could not afford to go. He read the tragedy many times studied his part till he was what is called "letter perfect," and at the Astor library copied many draw-ings, colored by his own hand, of the dresses he had to wear. These garments and effects were mad out of the cheapest material from his own patterns, cut and sewed by his wife, and for six weeks nothing in that house was thought of or

talked about but "Othello." The young man, realizing what it all meant to him, was exceedingly anxious about the results, as was his wife. They lived in a poor, humble little apartment, and he was to take a midnight train to the scene of his great effort only a day or two before he was to make his debut in one of the most important and trying parts of the
