

1. Library Goal

Launch the ScholarShip ECU Institutional Repository as a pilot project.

a. Department Goal

Support the building of infrastructure and critical updates for the ScholarShip as it enters phase two of its development

i. Criteria for Success

- Configuration errors fixed and repository infrastructure stabilized
- Individualized upload interface developed for Art School
- Workflow established for the regular deposit of ETD
- Interface enhancements and software uploads as necessary

2. Library Goal

Improve accessibility, awareness and use of library collections and services.

a. Department Goal

Implement a sustainable plan for adding new collections and enhancements to several of Digital Collections projects including the repository and the finding aids collection.

Work on department PR and collaboration initiatives

i. Criteria for Success

- Enhancements to Digital Collections Repository
 - Implement collection development plan that will provide a series of collections from within our holdings for digitization in the coming year
 - Finish and launch collection interface for the *Seeds of Change* grant
 - Create a collection for centennial oral histories
 - Begin to migrate *ENCDL* and past exhibits into the new repository search
- Finding aids
 - Redesign interface for finding aids collection interface and experiment with new forms of navigation and interoperability with objects in the repository
 - Develop a sustainable workflow for updating links in a finding aid when items are digitized
 - Integrate University Archives finding aids with the current collection of Manuscript Collection Finding Aids
 - Investigate addition to ArchiveGrid
- Increase visibility of Digital Collections and participation in collaborative networks

- Investigate the possibilities of creating a Flickr collection and other digital PR initiatives
- Host the Digital Collections Collaboratory Blog
- Investigate the possibility of adding books from our digitized collection to Openlibrary

3. Library Goal

Manage and develop collections for the 21st century library

a. Department Goal

Continue to make critical infrastructure updates and test developments through grant-funded and other special initiatives that will enhance our ability to create, sustain, and preserve digital initiatives

i. Criteria for Success

- Critical infrastructure updates
 - Investigate switch to JPEG2000
 - Set up OAI protocol for exposing our records for harvest
 - Investigate and advocate for a digital preservation solution for our data
- Grants and special projects
 - Act as lead institution should the *Ensuring Democracy through Digital Access* grant be funded by NC ECHO
 - Develop a *Mini Page* project and full-text searchable database
 - Continue to support web development for the *Seeds of Change* grant in its second year

4. Library Goal

Provide educational and cultural opportunities for the university community and residents of eastern North Carolina.

a. Department Goal

Pursue the *Ensuring Access to Democracy* grant in collaboration with the State Library of North Carolina and UNC Chapel Hill, to digitize approximately 2,300 state government documents available to all

i. Criteria for Success

- Grant is submitted in February 09
- Should it be accepted, work will begin in July 09 with identifying volumes and shipping to UNC-CH for digitization and designing and populating the project website

5. Library Goal

Assess selected library services and collections.

a. Department Goal

Continue to implement usability testing of various projects to ensure sound development and assess our digital preservation risk

i. Criteria for Success

- Carry out usability tests for the *Daily Reflector* and *Ensuring Democracy* grant project
- Develop and plan a round of usability testing for the Digital Collections interface for fall 2009
- Use the TRAC assessment tool to evaluate our digital preservation risk
