Dear Frank,

I received your letter last week and I was sure glad to hear from you.

Thanks a lot for answering my question about the long-ness of the base at Norfolk. I always wondered just how large it was.

So you just fool around with a few thousands volts eh! I'd be scared stiff three fourths of the time.

On St. Patricks Day we had a program at school. It was it was cute! It was supposed to be a radio program. The sponsers of it were "Shamrock Shindig Soap" The soap with the hole in the middle so there won't be any scraps left in the wash-bowl. After that a bunch of us went & saw "The Indians" was it swell!

Boy, it's raining cats & dogs here today. You'd never believe that its spring.

I'm glad you got the picture all right. I can just imagine what you imagined that I looked like. Now Frank ---- how about you sending me a picture. I hear your address is changed so I'll forward this on. Good-bye for now. Take care of yourself

God Bless you

Sincerely
Dot

P.S. Please answer when you can.

S.A.G.
