" " large size.	38 00 to 42 00
" of moleskin plaster, per yard.....	1 00
" of roller bandages, per pound, assorted sizes.....	60

2412 * **Hamilton's Wire Gauze Splint for Hip-Joint.**

The above splint consists of an iron wire frame, moulded to the outside or back of the pelvis and thigh, covered with wire gauze. It is kept in place by a pelvic and broad thigh-band, and secured with buckles. Dr. Hamilton advises its use whenever it is desirable to secure immobility of the joint, together with exercise in the open air.

DIRECTIONS FOR MEASUREMENT.

1. Name of patient.	
2. Age of patient.	
3. Weight of patient (estimated).	
4. Right or left side.	
5. Crest of ilium to the condyles of the femur.....	Inches.
