Additional Splints.

11. Dr. H. A. Wilson's Metacarpal Splint, four in each setPrice, 75 cents for each piece.

The usefulness of this Splint is fully illustrated in accompanying cut. It is made in Rights and Lefts for adult's and children, of thin, flexible, perforated, and nickel-plated copper, which can be readily moulded to the parts as desired.

It is made adaptable for the adjustment of Levis' Metallic Splint, No. 4 (Phalanges), so that one or more of which may be used at a time, as the exigencies of the case requires. The injured fingers are given full support in their adjusted position, leaving the sound ones free for limited use, so as to avoid ankylosis.

New Combined Fore-Arm and Hand Splint.

Made in two forms as shown in the cuts below. These Splints are designated to fill a long-felt want for a Splint that could be universally used for all fractures and injuries of the fore-arm, hand, and fingers. Thus, the bandage can be applied (if necessary) above and below the injury, leaving it open or exposed for treatment. In addition to their "Antiseptic" qualities, our Splints retain the members in their correct and normal position, these are very important and essential features, not possessed by any other Splints in the market.
