

ULTRA-VIOLET-RAY APPARATUS.

9450

9450* THE "DERMO" FINSEN IRON ARC LIGHT,

As used by Dr. Otto Juettner in the Cincinnati Post-Graduate School.

This pattern is used extensively in Europe, and has been found one of the most practical and convenient instruments for holding against any part of the body in producing violet-ray effects.

The wonderful results obtained in the treatment of epithelioma, lupus, and skin diseases in general, have demonstrated that this method has long passed the experimental stage.

It is supplied with inlet and outlet water supply tube, which can be attached to a hydrant or to any irrigator or fountain syringe bag.

The lens is made of French quartz, has colored-glass window, rheostat and shutoff.

Price, complete.....\$75.00.

9451* THE FINSEN LARGE IRON ARC LIGHT APPARATUS,

As modified by Dr. Otto Juettner.

This apparatus has a French quartz lens with water space over same, through which the powerful light reflected by the parabolic hood passes.

It is handsomely japanned, decorated with gold lines and supplied with necessary rheostat, shutoff switch and fuse boxes.

Price.....\$75.00.

9451

9452* THE LONDON HOSPITAL FINSEN LAMP.

This apparatus is too well known to require a full description. It has enjoyed a large sale in Europe and in this country.

It is made for the 110, 220, 500-volt direct circuits and on the alternating current, but in each case we must know the kind of current available.

Price, as shown, with table stand, \$90.00
 " " " floor " 100.00
