

THE WOCHER ASEPTIC WASH STAND.

FOR WOUND AND URETHRAL DRESSING.

This beautiful office fixture fulfills a long-felt demand in supplying a Physician's Office with an up-to-date Wash Stand.

IT IS EQUIPPED WITH THE
FOLLOWING :

A White Porcelainite Wash Basin, with nickel-plated faucets, soap dish, outlet stopper, and having white-enameled waste pail with ventilated lid.

Two Copper Reservoirs, one for hot water, with heater underneath, and the other for cold water; both connected to the faucets on the wash stand.

A Copper Rochester Sterilizer, of latest design, for sterilizing gauze and instruments under pressure, with heater underneath.

A Valentine Urethral Irrigator on adjustable standard, with graduated jar, tubing and nickel-plated shield nozzle, as shown.

A White-enameled Bowl, used in venereal diseases, which can be turned under the shelf when not in use.

One Percolator Irrigator on adjustable standard, for wound irrigation, with tubing, nozzle, etc.

Three Glass Shelves for sundries.

Cleanliness is such an important factor in surgery that no physician can afford to be without an apparatus of this kind. Secondly, it is very useful and more than worth the cost of it in satisfaction and the favorable impression it makes on the patient.
