

ALL GLASS ATOMIZERS.

4914* THE COCAINE ATOMIZER.

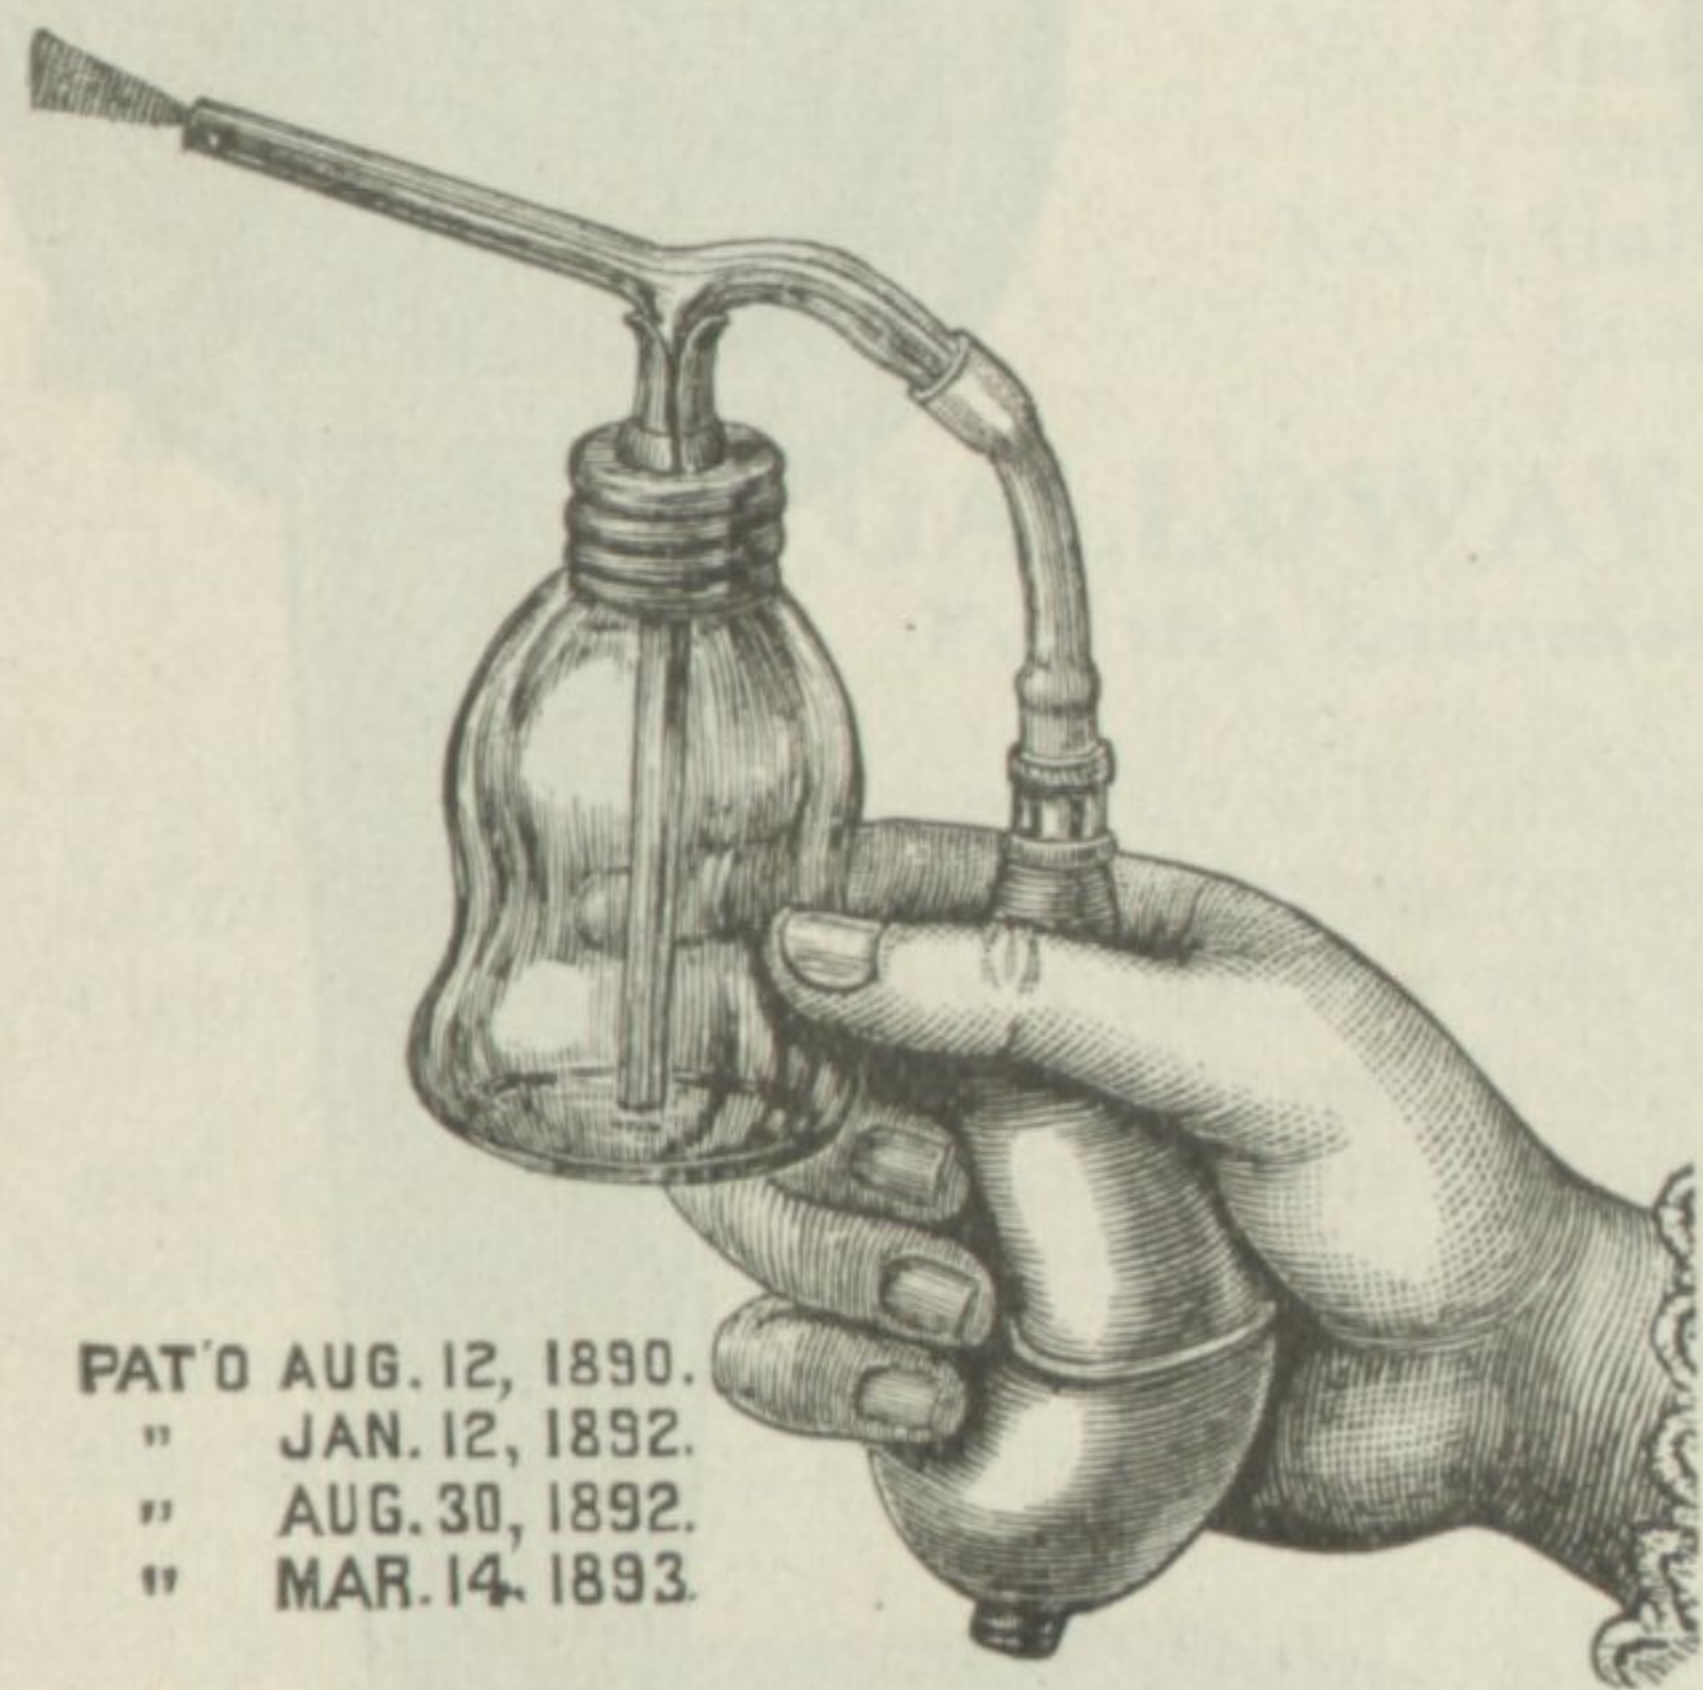

4914

It has many advantages which will be readily observed upon examination. Doctors who are familiar with its utility cheerfully recommend it.

Price, complete, with rubber bulb.....\$1 25

4915* No. 1 O. K. ATOMIZER.

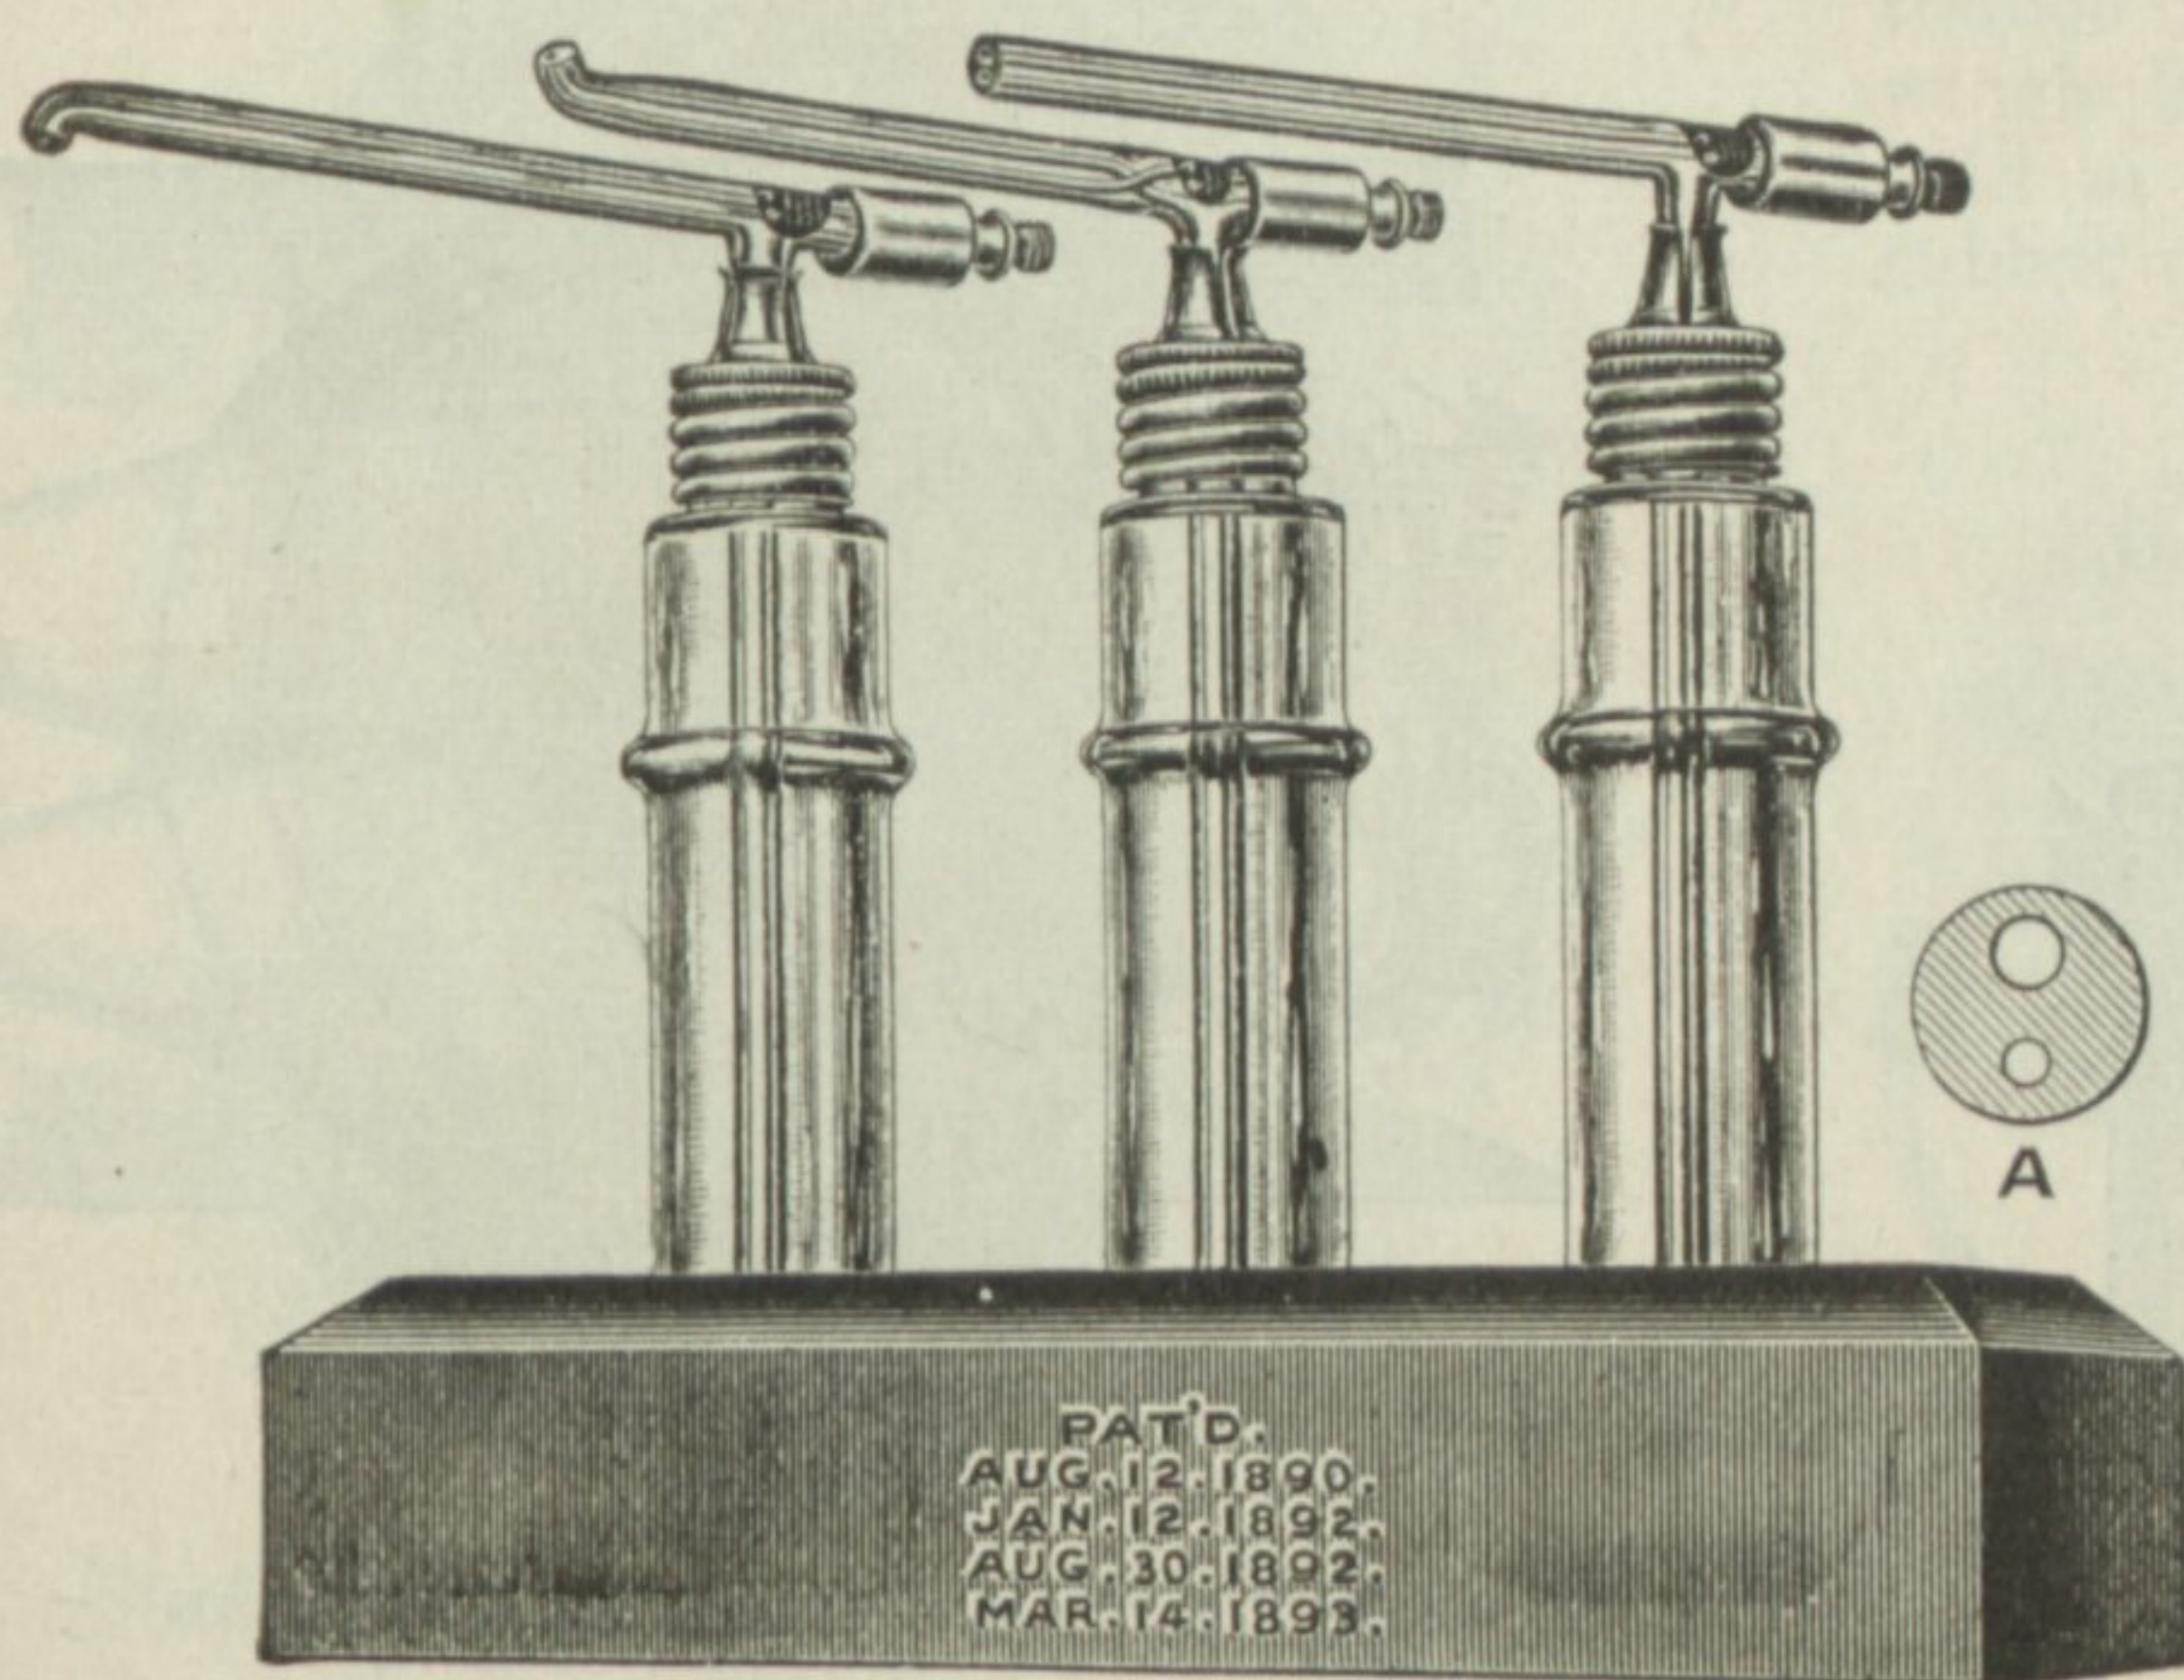

PAT'D AUG. 12, 1890.
" JAN. 12, 1892.
" AUG. 30, 1892.
" MAR. 14, 1893.

4915

The tube being practically one piece of heavy glass, apparently solid, no screw joint, or sleeve connected with it in any shape, it will be at once perceived that it cannot get out of order. If desired, the tube can be readily removed by simply drawing it from the cap. The tube can also be used by placing it in a test tube or tumbler. It is especially adapted for spraying Peroxide of Hydrogen, Alkalies, Nitrate of Silver, Oil of Vitrol, or any corrosive solution, also Vaseline, Oils or Ointments used in the treatment of inflammation of the throat and nose.

Price, complete, with rubber bulb.....\$1 00

4916* THE BOSTON SET OF SPRAY TUBES.

4916

These are made of heavy glass, carefully annealed, and sufficiently strong for all purposes. They are not designed to atomize with a pressure more than thirty pounds.

Fig. "A" is a cross-section of the double bore tubing, from which these atomizers are made.

The set consists of three spray tubes, three bottles and caps, with metal attachment to fit cut-off, and a hardwood pedestal to hold the bottles.

Price, complete.....\$3 00

All instruments designated with a * are illustrated.
