

DRY HOT AIR APPARATUS.

Rheumatism (Sciatic or Articular), Anchylosed Joints, Gout, Bright's Disease, Swelling of the Legs, Arms or Joints, are successfully treated with this Apparatus.

No. 1 DRY HOT AIR APPARATUS.

WITH ARM, LEG, SHOULDER, HIP, ABDOMEN AND KIDNEY ATTACHMENTS.

By means of this appliance dry hot air of any graduated temperature up to 400 degrees Fahr. may be applied to any affected portion of the body, and the requisite temperature held for any desired time, thus producing an evenness of heat and depth of penetration not obtainable in any other way. Dry hot air can be easily borne as high as 280 degrees Fahr. Water boils at 212 degrees Fahr.

The apparatus consists of a cylinder 30 inches long, 14 inches high. Fitted with Hot Air Distributer (lined with Asbestos), Rest for Limb, Hot Air Conductor, Dampers for regulating heat supply and ventilation. Special Thermometer and Holder, and Attachments, Toweling, etc.

Immediate restorative action generally follows after the first application. The beneficial response is never doubtful. Congestion and inflammatory conditions are at once removed and circulation

restored to a wonderful degree. Full directions for using are sent with each apparatus.

No. 1.	Regular apparatus as above, of galvanized iron, with stand,	\$14.00
