

EMERGENCY SATCHEL No. 1.

This case is intended for the use of those who are making a specialty of surgery, and who desire to have a case in readiness that contains a complete assortment of such instruments, dressings, and appliances as are necessary for use when the surgeon is suddenly called upon for action.

The satchel is of cabinet shape, and made of best dark grained leather with nickel-plated clasps and lock. It is lined with smooth, light colored French calf, and may be washed out inside if soiled. The loops extend down one side and across one end, and a large pocket extends down the other side as shown. On the under side of each lid are seven loops, although in the engraving they are only shown as on one lid. All the loops are made of the fair French calf, and after they contain everything we furnish with the

satchel, there are still a number left into which the doctor may put such things as he wishes to have always on hand. Contents are as follows:

- | | |
|--|---|
| 1 dozen Aseptic Sponges in fine screw capped bottle. | 1 Pair Heavy Dressing Forceps. |
| 1 Glass stoppered metal covered bottle for Chloroform, 4 oz. | 1 Pair Heavy Scissors for removal of bandages, clothing, etc. |
| 1 Glass stoppered metal covered bottle for Carbolic Acid, 2 oz. | 1 Fine Razor. |
| 1 Bottle Carbolized Drainage tubes. | 2 Pus Basins. |
| 1 Bottle Corrosive Sublimate Tablets. | 1-4 quart Fountain Syringe with Esmarch's Irrigating Nozzle. |
| 1 Bottle with screw cap containing 1 dozen Surgeons needles, safety pins, plastic pins, etc. | 1 Esmarch Universal Bandage with Instructions on its use for all fractures and dislocations. |
| 1 Bottle Antiseptic Catgut Ligatures, 3 sizes. | 1 Heavy Linen Roll with web strap and loops for such instruments as are needed and which may be washed any number of times. |
| 1 Bottle Antiseptic Silk Ligatures, 3 sizes. | 2 Heavy Zinc Trays which fit into each other and over outside of bottom of bag. |
| 1 H. R. Iodoform box and duster. | |
| 1 Instantaneous Tourniquet. | |
| 1 Nail Brush. | |
| 1 Box Hydronaphthol Soap. | |

The satchel has two straps with buckles which extend around the outside of the bag, and are so put on, that, when the satchel is closed they fit tight and hold on the pans or trays, but when the satchel is opened are loose enough to admit the trays being taken off without unbuckling them.

In getting up this Emergency Satchel it was our aim to furnish the surgeon with a bag that would hold everything that he finds necessary to have with him, and to furnish with it ONLY the dressings that he would have to have at any operation, and NOT the instruments, because most operators already have these, or at least have their own ideas as to what they want to use.

The satchel with the above contents in it has hardly begun to be full and the operator fills it with whatever his experience has shown him to be the most essential. There is room for ether in the original can, 5 yards of guaze in a tin case, a whole pound of cotton, roller and plaster paris bandages, plasters, an inhaler, an operating cushion and apron, and if the operating case is of the late compact style, even for that. If the satchel will not contain the operating case, it may be strapped under the bottom of the zinc trays, and make it possible for the whole outfit to be carried in one hand.

It will be seen that in railroad emergency surgery the satchel will hold enough dressings to suffice for a number of injured persons.

The great advantage of our outfit is, that should the operator be called on to operate on other than emergency cases, such as lithotomy, laparotomy, etc., it is only necessary to take out the amputating case and put into the linen roll such instruments as are desired, and proceed without further loss of time. Price complete, 17 inches long, 9 inches wide, 10 inches high, \$22.50.

No. 2 is a smaller size for light special surgery, with same contents. Price complete, 16 inches long, 7½ inches wide, 8 inches high, \$20.00.

Price of Empty large satchel with loops,\$10.50.
 " " " small " " " 9.50.

Any of the above satchels made of genuine Alligator leather at an additional cost of \$5.00.
