

No. 3 DOCTOR'S SAFE.**4-Tumbler, Non-Pickable Combination Lock.****DIMENSIONS.**

Outside: 29 inches high, 18 inches wide, 18 inches deep. Inside: 15 inches high, 10 inches wide, 10 inches deep. Approximate weight, 500 lbs.

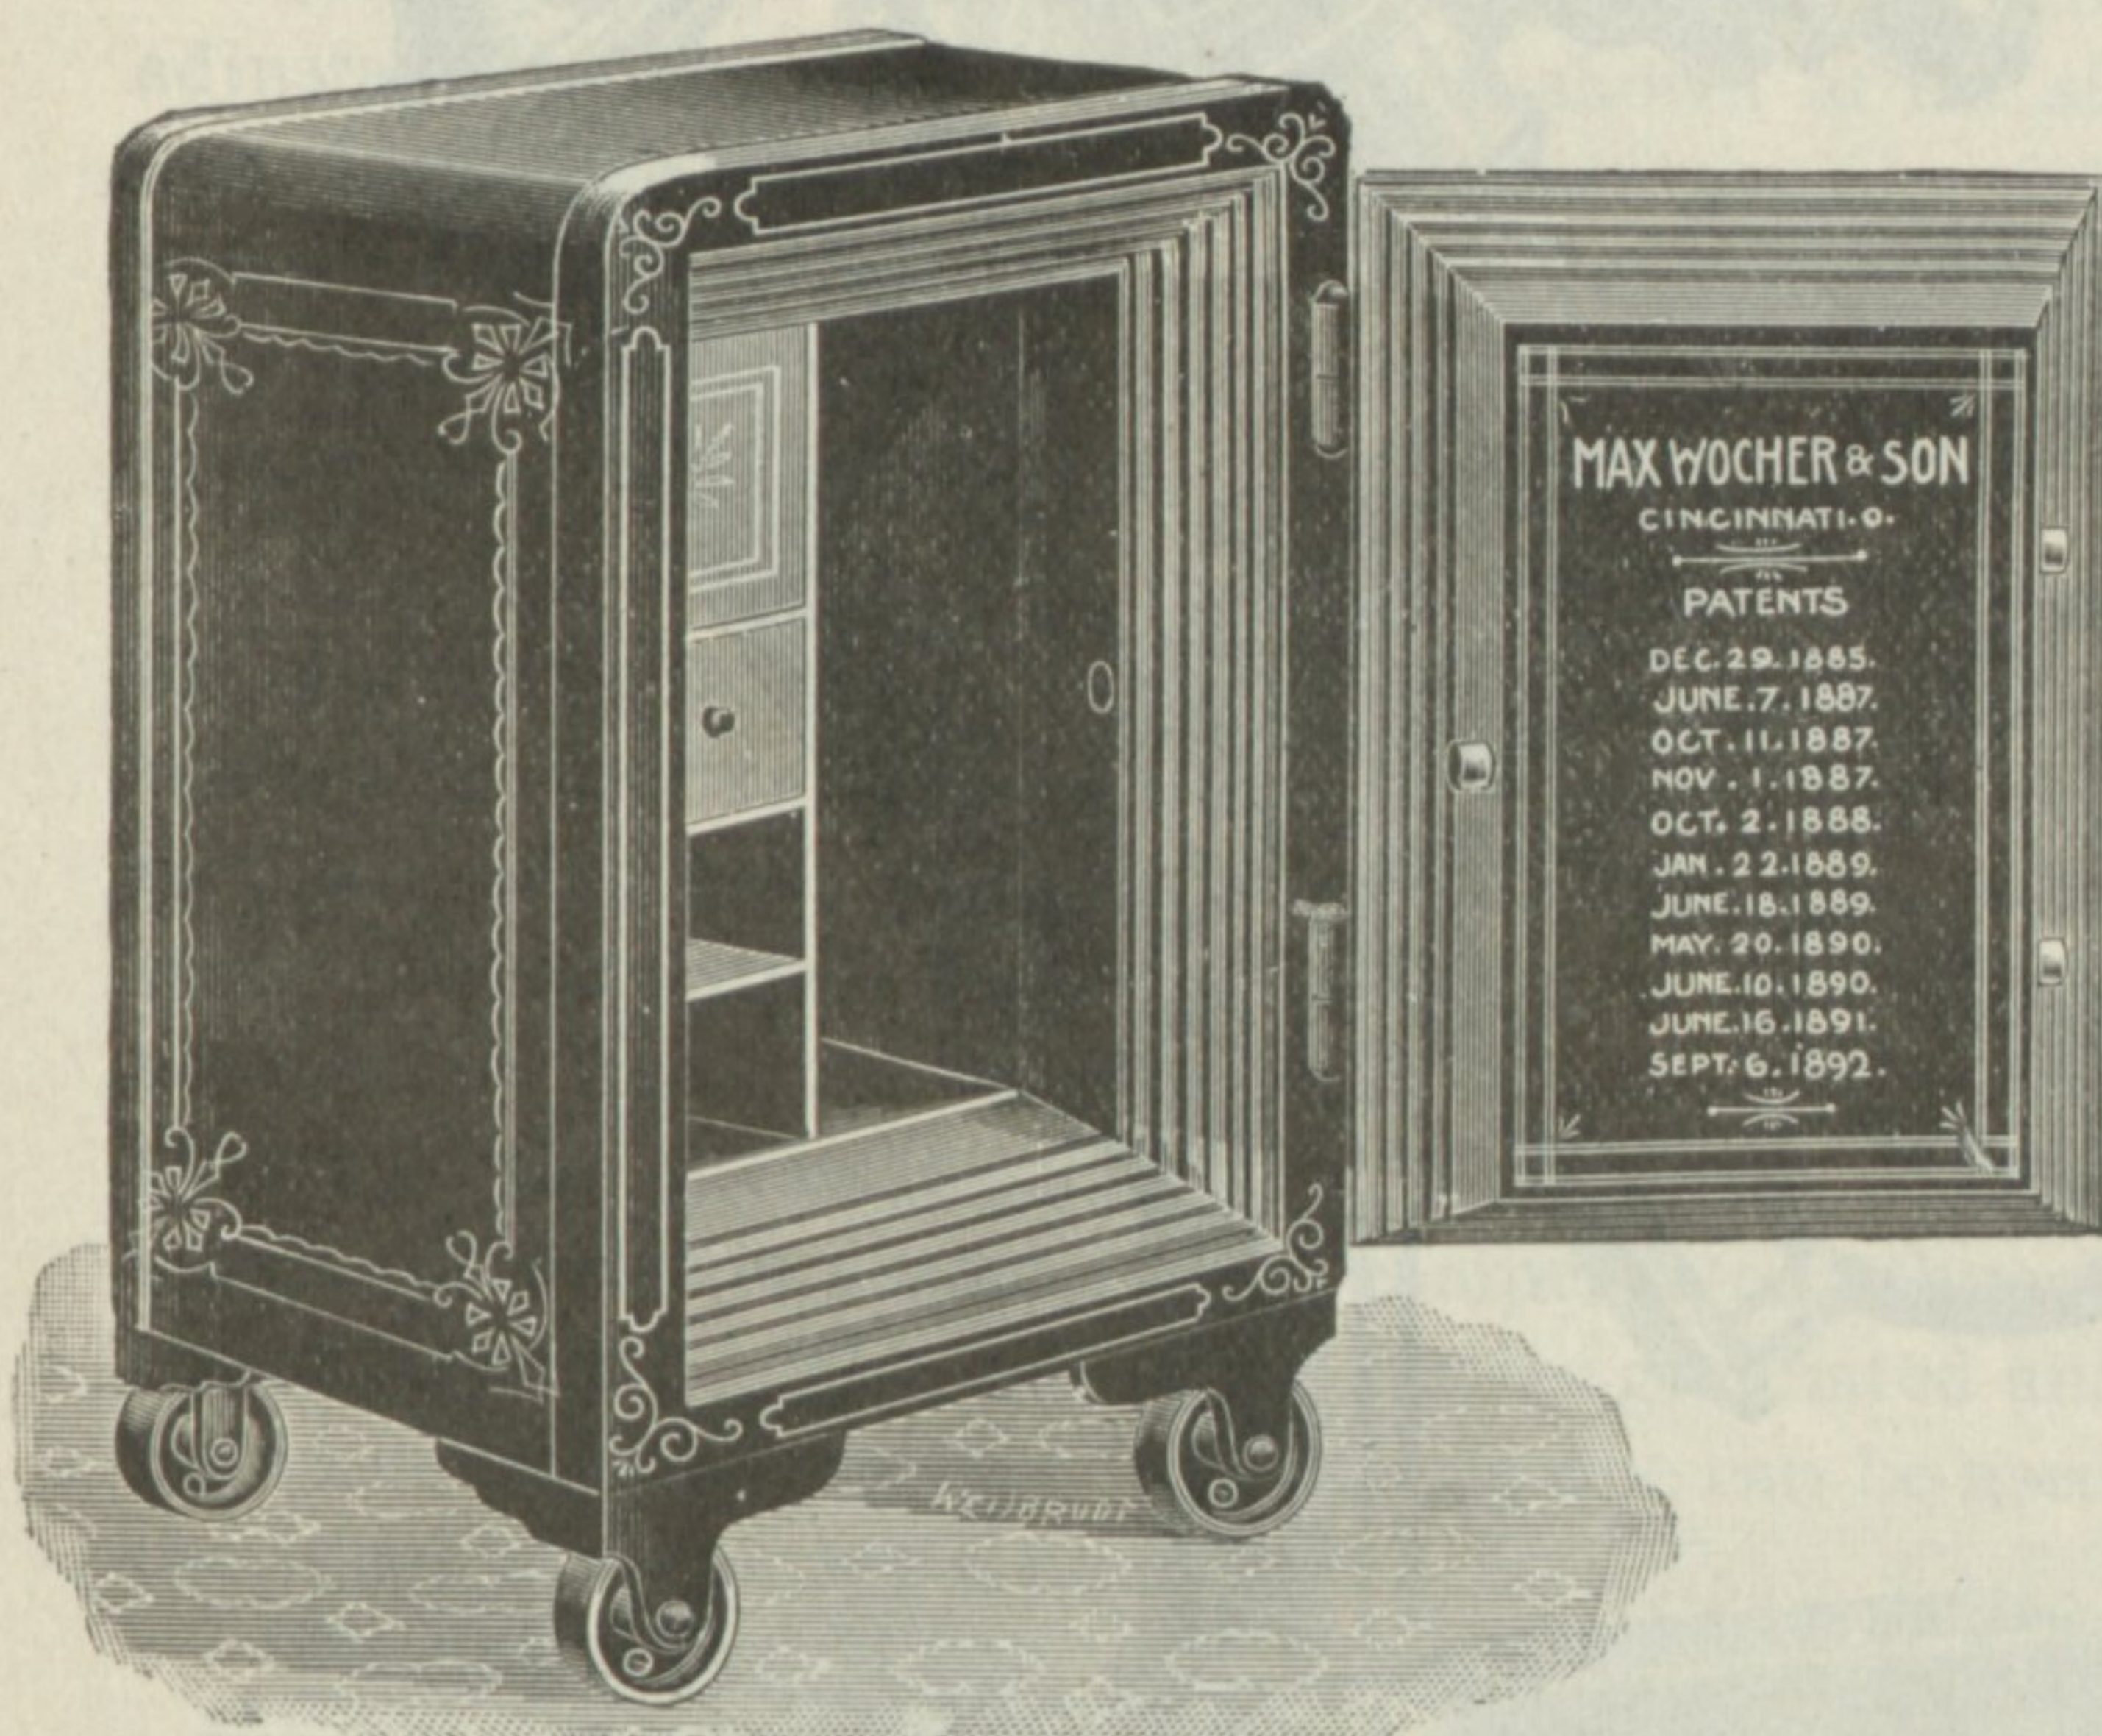

Subtreasury, 5x5x9, with duplicate flat keys and metal cash tray. Drawer and two pigeon holes under subtreasury. Book space, 15x5x10.

Retail price, \$40.00. Net cash price, \$30.00.

This Safe is one of our Leaders. It gives to the professional man ample capacity, not only for books and papers, but for instruments. It is sufficiently roomy for quite a large business, holding ledger, journal and cash book of standard size, with room for other small books. Subtreasury drawer and pigeon holes furnish more room for money, papers, etc., than is really necessary to an ordinary business.

Purchasers are fully justified in paying the slight difference in price over the smaller sizes.

We guarantee that the corners of these safes will not spread nor the doors sag.

Lena, Wis., March 27, 1891.
Gentlemen: Our place was burned last October, and our safe was white hot in the fire. I can say this much: our books and papers were not damaged at all. We want another No. 4 or larger size now, as we are getting onto our feet again.

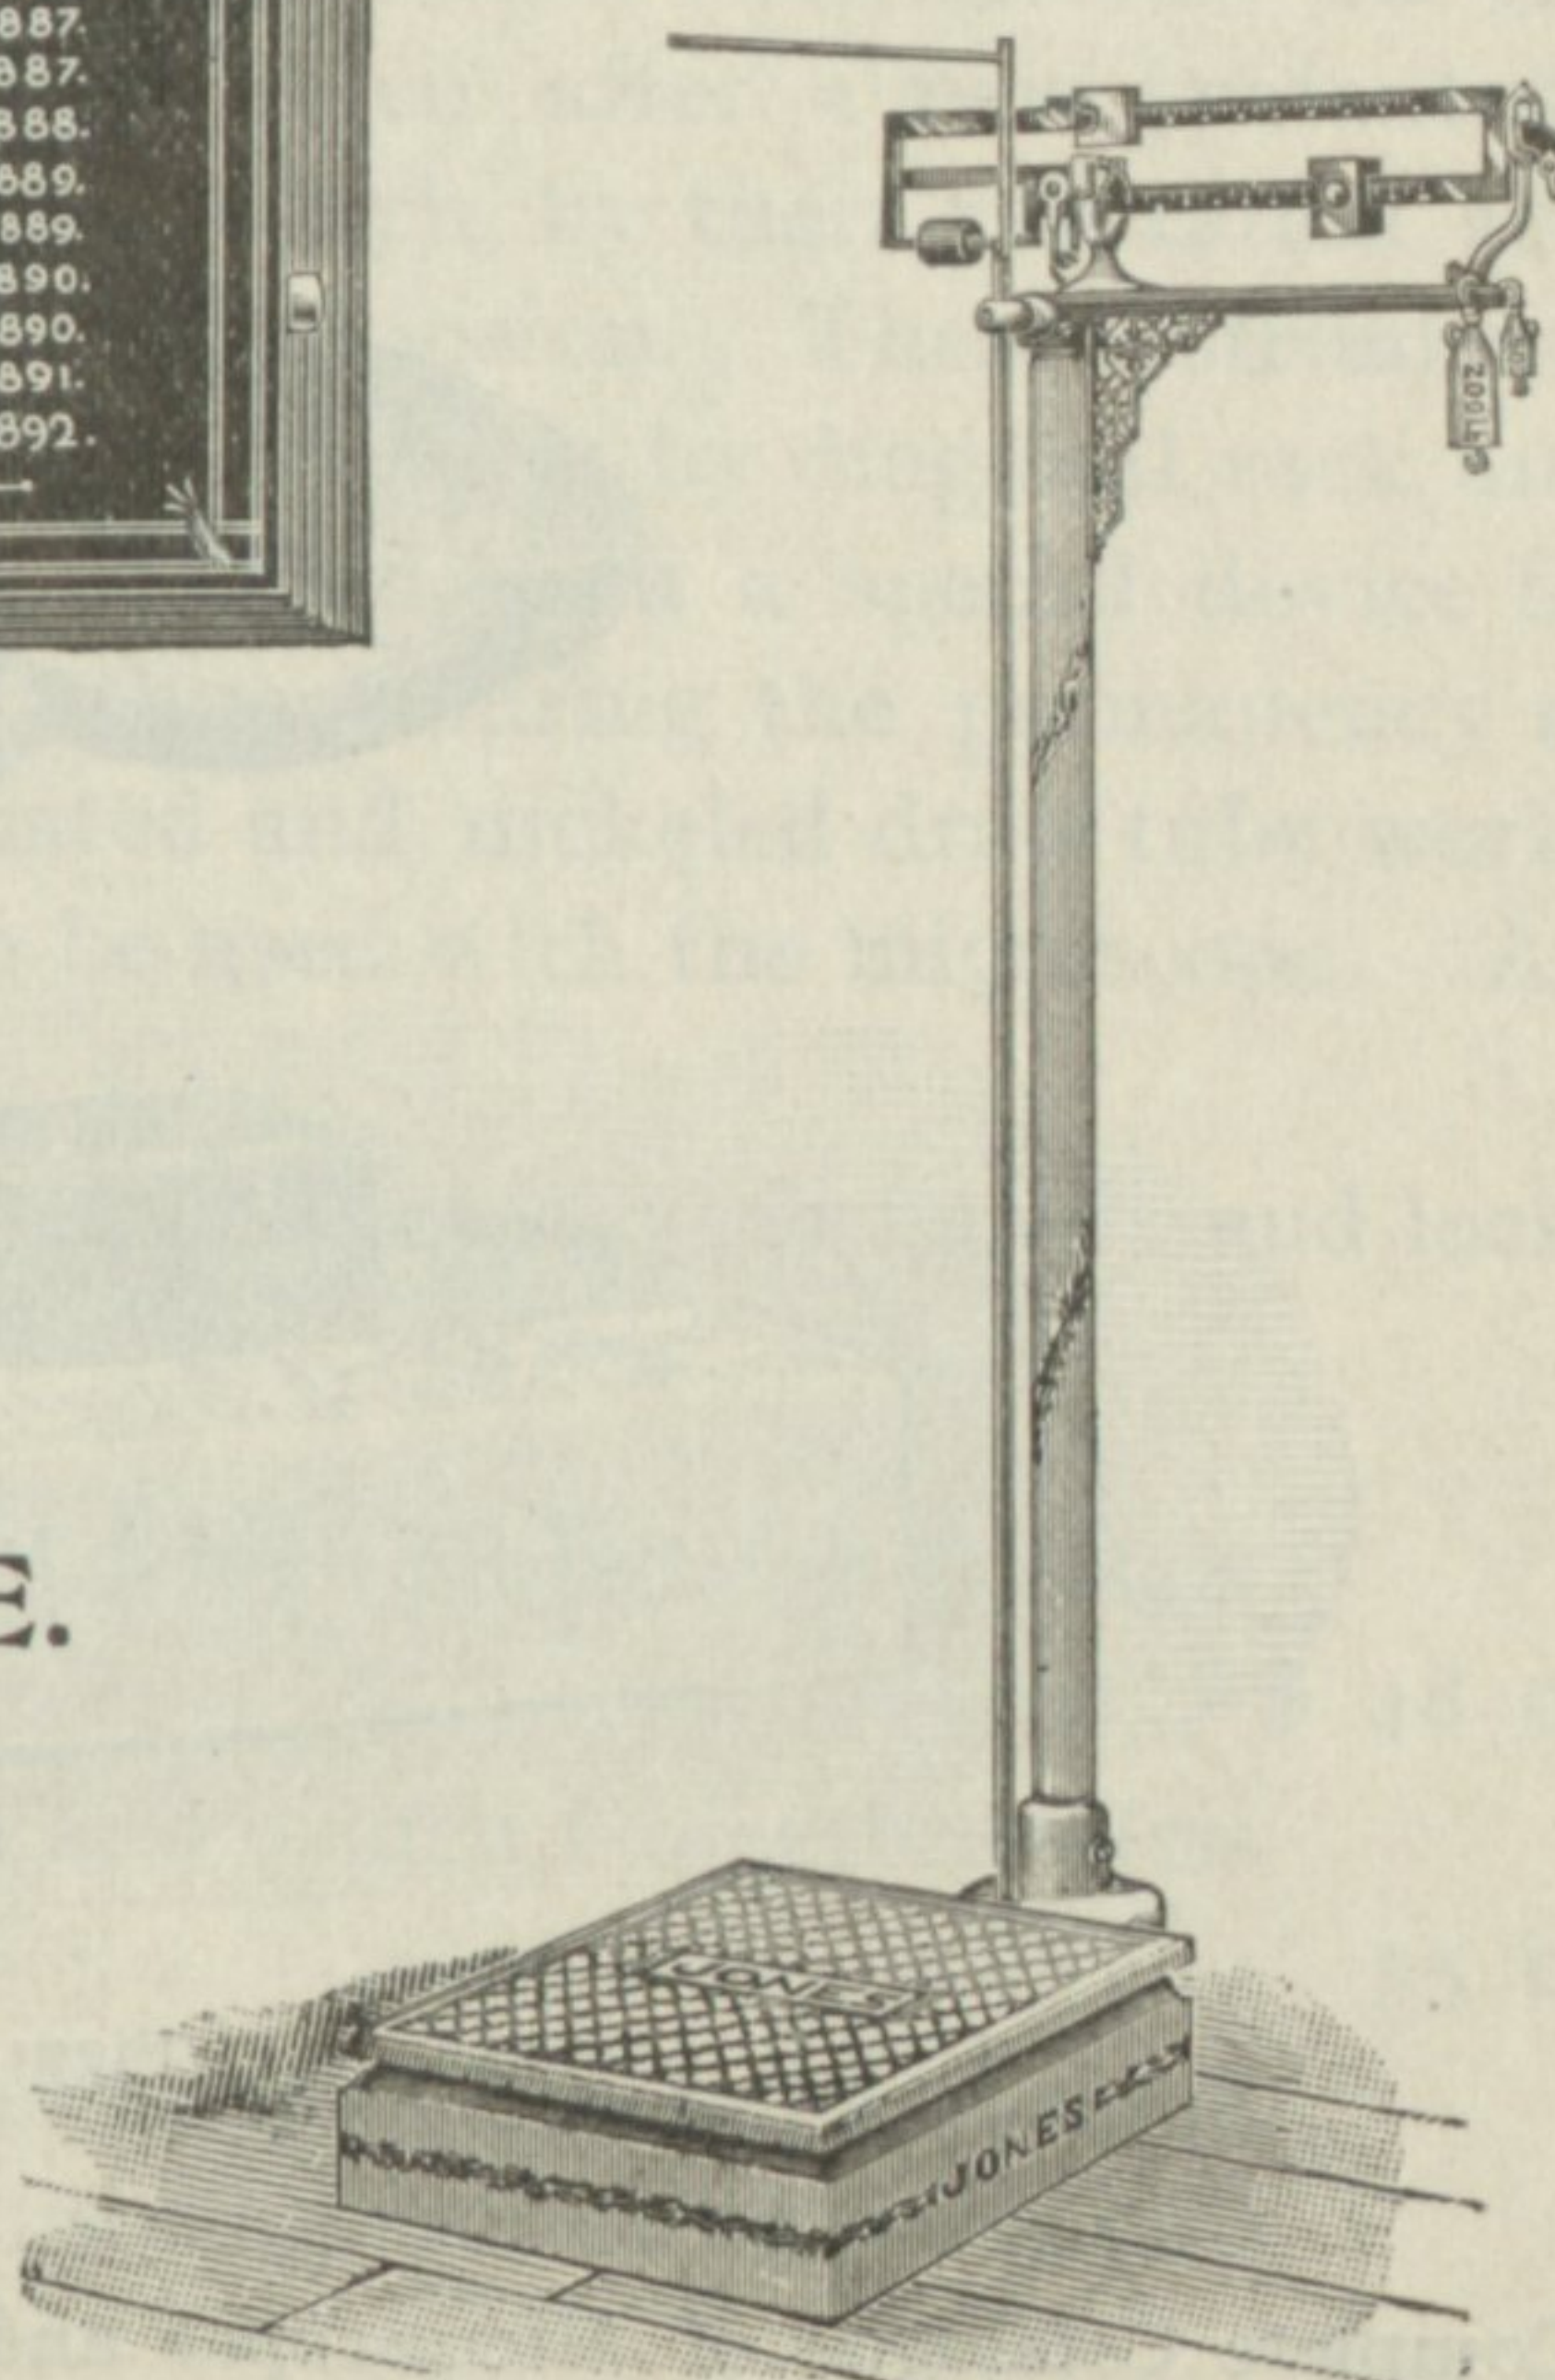

Yours truly,
HALE & PELKEY.

DOCTOR'S OFFICE SCALE.**The Bertillon — Gives Weight and Height.**
