

MAX WOCHER & SON, CINCINNATI, O.

SPENCER MICROSCOPE STAND No. 1.

Especially adapted for all requirements of the practising physician, clinical worker and bacteriologist, and especially desirable for college or hospital use. It is solidly constructed of brass. The horseshoe base is of ample size and lead filled for greater stability. All edges are slightly rounded. The solid pillar is extremely strong and firm. The stage is large and covered with vulcanite, so securely attached to the metal that warping or separation is impossible. It has the quick screw substage and sleeve protecting the sextuple screw from dust. The coarse adjustment is by accurately cut diagonal rack and pinion, working very smoothly. The micrometer screw fine adjustment is made dust proof, greatly increasing the length of service of the instrument. The body tube is of large diameter, convenient for photo-micrographic work, while the graduated draw tube is of standard size, permitting the use of other accessories. The base and substage parts are heavily covered with a dark steel colored plating to resist solvents, the upper parts being finished in a permanent lacquer of pleasing color.

STANDS 1 A—1 H.

T/..349	Stand No. 1 A.	With 1 eyepiece, 16 mm. (2/3 in.) and 4 mm. (1/6 in.) objectives (par-focal), with iris diaphragm on substage	\$48 00
T/..355	Stand No. 1 B.	Same as above, with double nosepiece	53 00
T/..361	Stand No. 1 C.	With 2 eyepieces, 16 mm. (2/3 in.) and 4 mm. (1/6 in.) (par-focal) objectives, with iris diaphragm on substage.	50 00
T/..367	Stand No. 1 D.	Same as above, with double nosepiece	55 00
T/..373	Stand No. 1 E.	With 1 eyepiece, 16 mm. (2/3 in.) and 4 mm. (1/6 in.) objectives, Abbe condenser with its iris diaphragm, also with iris diaphragm on substage, and double nosepiece	63 00
T/..379	Stand No. 1 F.	Same as above, with two eyepieces	65 00
T/..385	Stand No. 1 G.	With two eyepieces, 16 mm. (2/3 in.) and 4 mm. (1/6 in.) dry, and 2 mm. (1/12 in.) oil-immersion objectives (par-focal), Abbe condenser with its iris diaphragm, also with iris diaphragm on substage	93 00
T/..391	Stand No. 1 H.	Same as above, with triple nosepiece	100 00
