

MAX WOCHER & SON, CINCINNATI, O.

DILATING BOUGIES.

D/..3340	Olive pointed, extra quality, with flexible, soft anterior part and rigid posterior part	each, \$0 75, dozen, \$6 75
D/..3346	Cylindrical form	" 0 30 " 3 00
D/..3352	Conical form	" 0 55 " 5 00
D/..3358	Olive pointed tip (conical olivary)	" 0 60 " 6 00

N B —This style of bougie facilitates an easy introduction as the flexible part of the instrument follows all curvatures of the urethra, passing freely over the prostate into the bladder, while the rigid posterior part enables one to push firmly.
