

MAX WOCHER & SON, CINCINNATI, O.

D/..638. Casper's operating cystoscope.

The complete set of instruments consists of 3 galvano caustic snares, 1 galvano cautery tube, 1 tube with lithotrite, 1 tube with foreign body forceps, 1 cystoscope, and 1 snare adjuster. The instruments are similar to Dr. Gueterbock's, D/. 636, and only one cystoscope is required for the set. The snare adjuster uncoils the sling in the bladder to the shape required for the removal of polypi, etc.

Fig. A. Cystoscope fitting in all the operation tubes.

" B. Tube with galvano cautery.

" C. Tube for galvano caustic or wire snares, 3 sizes, length of curved end, 10, 15, 20 mm.

" D. Tube with lithotrite.
