

The Butler Combination Drug and Instrument Cabinet.

REVOLVES ON A PIVOT.

IS four-sided and highly finished, and full of just such departments as needed; i. e., cases for medicines in most approved form, and standard packages; six roomy drawers; surgical instrument case with adjustable glass shelves; place for battery, pitcher, and bowl, etc. It revolves on a base hidden from view, and that base on double roller anti-friction castors; hence can be easily moved when desired, and can be revolved easily to bring either side to the front as desired. We refer you to the accompanying cut showing the several sides. Dimensions, 26 x 26 inches square, 54 inches high, made of quarter-sawed oak, antique finish, highly polished, and nickel trimmings. An elegant piece of office furniture. **Price, \$37.50, for Cash.**
