REVIEW OF THE MARKET, FOR THE PAST THREE DAYS, NEW-YORK, APRIL 27, 1867.

The European rumors of war between France and Prussia continue to keep the gold market in a state of ferment. That there is any real cause for such effects is doubtful, but then sensational reports serve the purpose of those who shape the course of gold, and that is about all that they require. The price rose to 141½ on Thursday; from which point it reacted yesterday to 138—the closing price at the date of our last. It seems to be assumed by a class of reasoners that in the event of a European war gold will advance; but in the absence of a return of our bonds (which were bought on speculation and are highly appreciated there) we fail to discover the soundness of the assumption. On the contrary, after the first shock it is not improbable that gold would decline. Capital would instinctively seek investments of greatest security, and it is for this reason that American credit having survived so well the shock of our own gigantic war, would best endure the shock of one on the European Continent. Fortunately, commercial values are not subject to the influence of gold fluctuations to anything like the extent they were formerly, and generally trade has moved along in much the same groove despite the perturbations of the gold room. Bread Stuffs have taken an upward turn, bread is now entitled to be ranked among the luxuries. It is a rather amusing reflection in this connection, to be assured that the prospects of good Winter wheat crop were never better, and that the current high prices are inducing farmers to seed an usually large breadth of land to spring grain. The agricultural interests will be an engrossing subject during the next six months. Cotton has taken an upward turn. Exchange leaves off weak, while the money market remains easy at 5 @ 6 per cent. on call, and 6½ @ 5 per cent. for discounts.

ANCHORS AND CHAINS.—The market is steady at our quotations.

ASHES—There continues a steady fair demand, and the market is firm at \$8.25 for Pot, and \$13 @ \$14.25 for Pearl, with sales of 40 @ 45 bbls. The stock yesterday at the Inspection Warehouse of Messrs. LESTER, PALMER & Co. consisted of 220 bbls. Pot, and 65 do. Pearl—altogether 275 bbls.
Export, from 1st to 23d April— 1867. 1868.
Pot, 266 266
PEARL, none none

BEESWAX—A sale of 2500 lb. Southern and Western, was made at 41 cents cash, which is an improvement.

BOOTS AND SHOES—The stock of desirable work continues light, and the market shows a little more tone. Still, business is moderate, purchases for the interior being in small lots as wanted. The export trade is also light, but, in view of the present reduced rate of production, in connection with the firmness of the raw materials, there is no pressure to realize, save at full prices. We quote:—

CEMENT—Rosendale is steady at \$1.75, cash.

COCOA—We notice a sale of 85 bags Guayaquil at 67 cents gold, duty paid.
Foreign continue in small supply, but the demand is now moderate. Domestic supplying its place even for Gas purposes. By auction, of Scranton, 10,000 tons Lump sold at \$4.35 @ \$4.27½; 12,000 do. BRANSON, 13½; 2500 do. per ALPHA, 13½; 2380 St. Domingo, for export, 10½ @ 10½, in bond; 300 do. same, 15½; 550 Maracaibo, 15½ @ 15, both duty paid; and 1300 Rio, in Baltimore, per MAT QUEEN and GRAY EXETER, 13½ in bond, all gold.

COFFEE—The market for Brazil continues depressed, and our revised quotations show a further decline of one-quarter of a cent in gold for all kinds except Ordinary, which remains as in the early part of the week, and one-half a cent on Fair to Good cargoes. Java may be quoted 24½ @ 25½ cents, and West India descriptions, though quiet, are without particular change. The sales are: 100 bags Rio, per steamer SOUTH AMERICA, at 11½ cents; 500 do. per same, 10½; 430 do. per M. A. BRANSON, 13½; 2500 do. per ALPHA, 13½; 2380 St. Domingo, for export, 10½ @ 10½, in bond; 300 do. same, 15½; 550 Maracaibo, 15½ @ 15, both duty paid; and 1300 Rio, in Baltimore, per MAT QUEEN and GRAY EXETER, 13½ in bond, all gold.

COIR YARN—We note further sales of 27,000 lb. at 13 @ 14 cents, cash.

COPEPAGE STOCK—The market has become very dull for all descriptions, and prices are a little easier. We quote:—
Molasses Shooks, 32 inch with Heads, 3.50 @ 3.10
Sugar Shooks, with Heads, 2.50 @ 2.00
Sugar Shooks, with Heads, 96 inch, 3.75 @ 3.10

COPPER—Manufactured is without further change in price, and we quote as before, say 35 cents for New Sheathing and 25 @ 24 for Yellow Metal. The demand for ingot from consumers is still very light, the bulk of the moderate business being of a speculative character; prices have been pretty steady since our last; the sales are 50,000 lb. Minnesota, for export, at 25 cents; 60,000 lb. Detroit, to arrive, 24½; 10,000 lb. Portage Lake, for future delivery, 24½; 60 @ 60,000 lb. Detroit, on the spot, 24 @ 24½; and 70 @ 80,000 lb. Portage Lake and Baltimore, 24.

COTTON—The market was easier on Wednesday, and rather quiet. On Thursday, most holders withdrew their stocks, looking for higher prices; and consequently, under the very decided depression of late, and prices in Liverpool, (including Liverpool) and in Middling Orleans 10½, on the 20th inst., and reported private despatch quoting 11½, for Middling Orleans on the 20th, a strong speculative demand was in and prices improved fully 1½ cents @ 2½, the market closing buoyant. The sales for the three days are 8200 bales. We quote:—

DRUGS AND DYES—The demand continues moderate, and we have only to note small sales of Hyd. Potash at \$3.75 for French, and \$3.85 for English; 5 cerosons Mexican Coccoline, 90 cents; 15 casks Cream Tartar, 30 @ 10 do. Tartar Acid, 51 @ 62; 15 casks Chloroform, 32½ @ 33; 5000 lb. Gum Kowrie, 175 bags Cutch, 25 cases Spanish Solid Licorice Paste, 100 casks Bleaching Powder, and 25 tons Soda Ash, on private terms. Quinine is quiet at \$2.20 for French and American.

DUCK—The price of Cotton is again reduced, and we now quote No. 1 66 cents. Foreign is without change.

DYEWOODS—We have but to note a sale of 75 tons St. Domingo Logwood at \$15 gold.

EARTHENWARE—The demand during the past week has been a little more active, but trade is yet a great deal behind previous seasons. A sale by auction of some 500 pipes, took place on Wednesday, but goods did not average high prices. Some manufacturers are already in the market soliciting orders, but these will not be obtainable save at large concessions on last year's discounts.

FIRE CRACKERS—A sale has been made of 1000 lbs. EXTRA Canton, on terms not made public.

FISH—Dry Cod are in good demand, and with a light stock prices are advanced 6 @ 37½ cents; sales 2500 qt. George's, here and to arrive, at \$6 @ \$6.12½; Bank air-out of market. Mackerel are steady, with a fair trade demand; Bay No. 1 are selling at \$18 @ \$18.25, No. 2 \$16.75 @ \$17, and No. 3 \$14; a cargo of Halifax sold on private terms. Pickled Herring are dull at \$2 @ \$2.50 for Sloop and Split. Salmon are quiet; No. 1 \$35 @ \$40, No. 2 \$33.

FLOUR AND MEAL—The Flour market has again taken an upward turn, prices of State and Western having advanced 15 @ 25 cents per bbl. during the period under review. As the improvement there has been an increased demand, mainly for home use, though light purchases have been made for the West Indies, British Provinces, &c. Our stock of desirable Flour is reduced to a comparatively low figure, and with a rising tendency of the Western markets, through inadequate supplies, continued light receipts and moderate production of local millers, holders have a decided advantage over purchasers. Present prices would afford a fair margin on imports from Europe, but, in view of the unsatisfactory result of last year's importation, French Flour, it is hardly probable that another attempt will be made very soon. California Flour has advanced 50 cents, and is relatively firmer than other kinds, with a steady good demand. Canada Flour has also undergone some improvement, with a moderate demand, mostly for the Province. The sales are 26,000 bbls. State and Western, equal to 5000 bbls. California, and 1500 bbls. Canada—the latter at \$13 @ \$16.25 as extremes for low grades to best extras. At the close the market generally quiet, the high prices checking the demand. We quote:—
State, superfine brands, 20 bbl. \$10 15 @ 11
State, extra brands, 11 20 @ 12 25
State, choice brands, 12 20 @ 13 20
Ohio, common brands, 12 25 @ 13 25
Ohio, fancy brands, 13 25 @ 14 25
Ohio, good and choice extra brands, 13 25 @ 14 25
Michigan, extra brands, 13 25 @ 14 25
Genesee, extra brands, 13 25 @ 14 25
Missouri, 13 25 @ 14 25
California, in sacks, 13 25 @ 14 25
Georgia, in sacks, 13 25 @ 14 25

Southern Flour is higher, in sympathy with the rise in other kinds, and the demand is more active, in part for export; sales 1100 bbls, closing at \$12.50 @ \$13.40 for common and medium, and \$13.50 @ \$17.75 for extra brands. Rye Flour is firmer and more active; sales 2500 bbls, closing at \$7.75 @ \$8.00. Corn Meal is quiet but firm; sales 1200 bbls. City at \$6.

RAISINS—With the exception of a considerable movement in Raisins, the particulars of which have not yet transpired, the business has been very light; prices generally are unchanged; the sales are 2200 lbs. Layer Raisins, in lots, at \$3.50 @ \$3.35; 50 lb. do., \$1.87½; 100 lb. do., 87½ cents; 200 lbs. Bunch, \$3.65; 160 bbls. Currants, in lots, 11½ @ 12 cents; 10 casks Turkish Prunes, 20½; 20 bbls. Pecan Nuts, 22; 50,000 Baracoa Cocoa Nuts, \$50 for Rough and Cleaned; 3400 bunches Baracoa Bananas, \$1.12½ @ \$1.75; 1500 Baracoa Pine Apples, \$1.17 @ 1.35 dozen large Porto Rico do., \$15 @ doz.; Messina Oranges, \$5 @ \$5.50; Sorrento, \$4; Messina Lemons, \$4 @ \$4.25; Palermo, \$3.75; 300 Cuba Pumpkins, about \$30 @ 400 lbs. Layer Raisins, 200 bbls. of short supplies for some months to come. In the West, prices are relatively higher than at the seaboard, and in some sections we hear of the most exorbitant prices (for an agricultural Country) being paid. As a result of this abnormal state of affairs, Wheat has been drawn hence, to some extent, by millers hitherto dependent upon local supplies of the West—purchasers from Vermont being among our latest out-of-town patrons. Intelligence from the leading Wheat growing States, report the crop

of Winter Grain as highly promising, with fine weather for Spring seeding. This is at least some encouragement. It will be truly a misfortune if, with all our surplus labor, mechanical appliances, fertile resources of land and increased facilities for transportation, we fail to produce an abundance of Bread Stuffs during the present season. The yield of the last two seasons was short, and we are now realizing the full effect of the curtailment of the supply. Prices are getting pretty well up towards "famine prices" and they would doubtless have been considerably higher, but for the somewhat liberal contributions vouchsafed us by California. The sales are 105,000 bushels at \$2.60 @ \$2.75 for No. 2 Milwaukee, \$2.85 for No. 1 do., \$2.26½ @ \$2.32½ for White California, \$2.25 for rejected Spring, \$2.38 for Amber State, and \$3.50 for White Kentucky. Rye has advanced 2 @ 3 cents, with a somewhat excited market at the close; sales 65,000 bushels at \$1.53 @ \$1.57 for Western, and \$1.64 for State. Barley is firm but quiet; sales 90,000 bushels at 98 cents, in bond, and \$1.18 @ \$1.22½, duty paid, for Canada West, and \$1.08 for Western. Of Barley Meal, we note sales of 4500 bushels at \$1.30 @ \$1.35. There has been an active movement in Oats, resulting in an advance of 8 @ 5 cents over last Tuesday's prices; sales 385,000 bushels, closing at 75 @ 77½ cents for Western, and 82 @ 83½ for State. The Corn market opened buoyant; Western mixed advanced to 130 cents, aloft, on Thursday; yesterday, however, there was a relapse, and the closing prices are fully 2 cents lower than those current at the date of our last; sales \$70,000 bushels, yesterday's transactions at \$1.55 @ \$1.55, in store, and \$1.57½, aloft, for old Western mixed (closing at the date of our last), with sales, after "Change yesterday", \$1.34 @ \$1.36 for new do., and \$1.35 for new White Southern, to arrive.

GUANO—Currency prices are a little higher, say \$87 @ \$88 per ton—from first hands the sales are light, at \$90 gold.

GUNNY BAGS—There is not much disposition to buy, and we have only to notice the sale of 5000 bales here, at about 13 cents gold.

GUNNY CLOTH—Is neglected; 22½ cents is the nominal price.

HEARDWARE—Business continues about as last noticed, generally dull, but quite active with a few houses—the demand is chiefly for Builders' Hardware, and to some extent for Mechanics' Tools. Manufacturers are getting a few orders by mail, but they are generally very dull, and prospects are not flattering. There is some demand for the best brands of Files, but other grades are depressed. Foreign goods continue exceedingly dull. Collins & Co. Axes are plenty and in good demand. Cast-steeled Files are also in request. Hollow Ware is selling fairly chiefly to the near-by trade at net List—Enameled and Tinned do. 25 @ 26 cent. advance on List. Sash Weights may be quoted 2½ @ 3 cents, as to quantity, and Sad Irons, 6 @ 7 cents @ lb. Table Cutlery is dull, as to present inquiry, though manufacturers have no stocks, and their orders ahead are large. Seymour's tools are quite active—their stock of Trimmers and Tailors' Shears is very light. Copper Rivets, No. 7, may be quoted 11 cents, less 20 @ 25 @ cent. Brass goods continue dull. Plated goods and Tin Ware are in moderate demand. Copper Bottoms are steady at 46 cents. Plumbers' Iron Pipes, Pipe-fittings, and plain Sinks are steady at 25 @ cent. off List, and other Iron Plumbing goods, 20 off. Saddlery goods are without improvement in demand, or change in price—the patent iron "Utility Hame Pastener," a new and useful article, is selling at \$3 @ \$4 @ doz. for tinned, and \$2.50 @ \$3.50 for Japanned, as to size. Agricultural Implements are only in moderate demand.

MONEY—We notice a sale of 9 tes. Cuba for home use at \$1.10 currency.
