

OFFICE OF

JACOB B. SCHENCK, AGENT,

MACHINERY DEPOT,

No. 70 MAIDEN LANE.

New York, June 1<sup>st</sup> 1867

By Spence & Co

Yours of May 23

is at hand & I am surprised that you discuss  
 the act of Mr Hawks while in your employ  
 the Packing was ordered for you & is as charged  
 & was undoubtedly used in your Engine & was  
 ordered in the same way that Hawks ordered  
 your Engine for a time - I do not suppose there  
 is any responsibility in Mr Hawks & he claims the  
 Packing was ordered for you

In reply to your  
 enquiry about a hand mill I would say that  
 a 24" stone double geared, with a Capacity  
 of from 8 to 12 Bu for stone mill cost 130<sup>00</sup>  
 & shipped 285<sup>00</sup> It should run about 400 to  
 500 times per minute - I enclose you a cut - the  
 mill is all complete & needs require bolting  
 down to the stone - I shall be pleased to  
 receive your order which shall have prompt  
 personal attention. Anticipating your future  
 favors I am

Yours truly  
 Jacob B. Schenck

Steam Engines and Boilers,  
 Woodworth Planing Machines,  
 Shafting and Pulleys,

is at hand & I am surprised that you discern  
 the act of Mr Hawks while in your employ  
 the Packing was ordered for you & is so charged  
 & was undoubtedly used in your Engine & was  
 ordered in the same way that Hawks ordered  
 your Engine for a mile - I do not suppose there  
 is any responsibility in Mr Hawks & he claims the  
 Packing was ordered for you

In reply to your  
 enquiry about a best mill I would say that  
 a 24" stone double runner, with a Capacity  
 of from 8 to 12 Bu for some nice cut Bone  
 & shaffer 285\$ It should run about 400 to  
 500 turns per minute - I enclose you a cut - the  
 mill is all complete & merely requires bolting  
 down to the stone - I shall be pleased to  
 receive your order which shall have prompt  
 personal attention. Anticipating your future  
 favors I am

Yours truly  
 Jacob B Schenck
