

Batts: 1/9/90.

My Dear Elias,
Your packet was recd. yesterday and the butter came the day before. I thank you for both but particularly for the butter. It is simply splendid. My wife and two children were sick in bed when it came but they are all up today. I am confident it caused them to "Proce" up considerably and believe if there was a little more of it they would "bridge" over their present sickness without trouble. But dont send any more right now, wait until they get sick again. Please say to Mrs Carr that I am now convinced her influence over you is good. But her influence I fear does not always guide you. If it did you wouldnt have asked me to send you the inclosed picture. If you have any spare toothpicks send me a few.
With best regards
I am Yr Fd W. Peasey
