My dear Carr

Now thinking these cases
worth the expense of calling the Committee
together I have gotten an opinion by Cor-
respondence. Cool Sperry may now be the
aggressor or its members not quite so influ-
ential as Sandy Rann but the evidence is
almost unmistakable that its organization
is illegal. I suggest that you have the
Lecturer (Bro Long) to investigate at once
as the longer it stands the worse it will be.
I think the Charge in Secy of State Alli-
ance is to the advantage of the Organiza-
tion. We now have a Secy and not a boss.
My household have "been down" with
"la Grippe", but on all "the mend" Mrs
G. was in bed two weeks. which prevented
my meeting an appointment at Taylorsville
last week. I hope to be there on next Tuesday
or Court week. I intend to make a fight for
nominations in this district but cannot
"in toto" McC's Rub. Success plan
casting about for solid ground.
which altogether a better district open
is stock and barter
now be nominated to his district

will, make the effort - but he must
himself - He and I had a good time
over on 2nd inst,
I have \$28,650 N.C. 4th and about
cash in the fund, but have to let
north have over \$2200 to carry cotton
bagging over. My brother lets us turn
that thing loose as soon as we can -
I think N.C. was the only state whose
Business Agency took hold of it, I am
investigating and S.C., Ga., La and Ark did
not. "other returns not yet in"

Sorry to say my "mine buyer" has not
yet returned -

Parker & Darden's work is telling for good
but if anything has come from States or other
district Congressmen I have now discovered it
I was in bed for near two weeks after return
from St. Louis - Hope you find better -

I am afraid our brethren of the north wish our neck
like the Irishmen's here - two objections - 1st Hard
to catch 2nd who worth a damn after you
catch him. And that we would have done
better to have organized their territory as we
did in Kansas, Iowa and Nebraska -

Yours truly
W. A. Graham
