Dr Sir:-

You favor of 7 inst² rec^d the report that N.S. R.R. Co should have made wrong delivery. Certainly it was a mistake for them to deliver Cotton to us intended for P.R. Co. However they made it. And as you had been shipping Cotton to us and ordering it sold to provide against store charges - the natural inference was that Cotton was for us and to be sold and that loss would follow. Just such mistakes have occurred before. Now as to turning the 10 bbls "Jst" over to P.R. Co you had as well ask us to bring the dead to life. for it is now in the Atlantic Ocean. At most, we think, all injury inflicted by the mistake is imaginary. However produce letter to P.R. Co ordering Cotton held, instruct them to return proceeds of the 10 bbls over to us and we will invest in 10 bbls of equal grade and hold subject to your order. To avert cause for any shadow of dissatisfaction we make this proposition - not that we are called upon to do so -
