Am Elias Carr

Old Sparta N.C.

Dear Sir + Bro,

I have read
with much interest the
articles in the New Observer
advocating the organizing
of associations to encourage
Home Industries.

For some years I have
thought that we were
neglecting ^{too much} our state indus-
tries, but how to get the
matter before the people has
been a question with me.
I had decided that at
our County meeting in April

to introduce a resolution
pledging ourselves (as far as
possible) to purchase for
our homes + farms only
such articles as are manufactur-
ed in this state.

Do you approve of this plan?
I hope to hear from you
soon.

Fraternally yours

D H Graves
