Dear Sir & Bro

Our Alliance desire to know if the Constitution of the National Alliance will allow sub Alliances, take in a person for Membership, who is a farmer and lives in the County - but runs a business in town as Retailer of Groceries, which he has to pay a license to run said business.

The man who desires Membership is a good man, and good farmer, whose sympathies are with us.

we also have not a right to take in all Mechanics, Iron or County, allowed by the National Constitution. please send me a national Constitution.

Yours Truly & Bro
