My dear Sir,
Old Point, Va.

Dear Sir:

Yrs. of 18th inst., & also sample of R/R
grain - R/R market firm & in quote say
6, 6/8 to 6/4, for prime, extra prime, &
Black stock 1 3/4 to 3/2, common 3/2 to
haps more - Spanish 120 & 125.

Impossible to quote with accuracy, & they are
made - say for 4 per. few notions of value
is, from the fact that the quality of all
under extra prime is so varied as also the
of buyers. Our buyers, as a rule, will not
bid full on stock not in market.

We value your sample to-day at 3/2 & could, we
think, get that, possibly a shade more. We can also
realize or nearly so, the figures in quote, for regular
goods - but off R/R, like off tobacco & "dog tail"
cotton may, at times, be sold at high price, & again
a seller must necessarily wait for a buyer.

Would be glad to handle some produce for you.
We have more R/R buyers here than in any other Southern
market, & generally can get more - Cotton steady at
10 7/8 to 11 for good lots.

Yr. truly,
Jno. Arrington & Sons
I have tested R/R for seed that we can recommend.
