Evidently from March 3rd

Bro Carr -

I enclose you a partial list of notes that Bro Dudden put us in for. Bro D. told me that he did not think his action put us in for them but to my mind we are certainly in for it - I find no record where your Committee gave Bro D. authority to endorse private notes did you give him the authority? What do you think we had better do in this matter - I have gotten quite a number of letters in regard to the County business agents that I believe it best to let it go over to next state meeting and have a uniform system adopted - not much will be done before then. I think we had better have another meeting in April if so.

- Come - Fraternaly

J. B. A.
