Dear Sir:-

We have decided to-day that our Commissioner to Europe to look after the question of cotton, tare and loans, will not leave before about Jan, 1st, '91. The exact day to be fixed and made known at Ocala, Fla., at the annual meeting.

We believe this to be a move of much importance to the cotton farmers and we urge your state to send a man also, that the Commission may be strong and large, as there is safety in numbers and it would insure a united action in the handling and sale of the great staple and money crop of the South. You will have ample time to confer with your Executive Committee and find a suitable man for the position. Please let us hear from you.

Yours fraternally,

Pres't F. A. Ex. of Ga.
