on Legislation,

Elias Carr, Esq.

Old Sparta, N.C.

Dear Sir & Brother:-

Yours of 25th is received, and contents noted!

I am not prepared to refute your opinion that it would not be a profitable investment. I know by experience, that the National Economist has not been a profitable investment. In fact we have lost something near fifteen thousand dollars, Nevertheless I believe it has been a good thing for the order and eventually we will get our money back and perhaps get interest on it. If we do not, I shall always think it was a good thing any way and never regret my part of it. A state organ may pay better than a national, and I believe if we could make every state organ an auxillary publishing house, to supply patent sides to the county papers it would be a great power for good.

Yours fraternally,

C. W. Macune
