Dear Sis & Bro,

I do not know how to answer the question "Can an Alliance refusing to subscribe to the Agency Fund share in its benefits?" It seems in justice to those who do subscribe that only subscribers should be expected to share in its benefits. But to say this is to take issue with our President which I do not care to do.

I believe that if such was the ruling the Fund would be raised much sooner.

Am in hope the Secretary's bond will be found O.K.

Some of your mail came to this
office, from Bro. Johnson & Thine,
which I read & addressed to you.

It seems that our Senator and
Representatives from this County
will vote for "Reason" or split.
Don't forget that Silo and swillage
article.

Fraternally,

D. Lovey.

As returns herein appearing
and accepted except
for assistance for bus
ness. Admitted.
