Dear Sir & Brother I write you to know what steps to pursue when a neighbor lodge takes in members nearest your lodge without the consent of the nearest lodge. About 4 months ago Capt Cooke sent his application to our lodge under the constitution we could not admit - Lawyers we returned it without further action since that time a lodge 4 miles from Raleigh has admitted him & there is other lodges that has bin taken members that should join here if any where Capt Cooke signs as attorney at law still hangs over the side walks I think the door has bin let down how shall we shut it for all the Lawyers wants to get in. Hoping to hear from you I am yours with much respect -
