

WILLIAM J. WHITE,
DEALER IN
GENERAL MERCHANDISE
And Fertilizers.

Warrington, S. C. April 15th 1889

My dear Mr Carr,

Enclosed you will find a bill of the Contractor's well. It seems to me to foot up right much, but I had the work done as cheaply as possible. You will notice the last item "Cleaning out $\$50$ ". This has not been done yet, but will be as soon as the weather will allow. I thought it best to wait a while before having it done as there is always an accumulation of mud brought in by the veins at first & in this well there is more than usual, as the rock in the old well were full of red mud & in washing down the wall of course the mud on the rocks went down too. Instead of my drawing on you, you ^{may} please send me a check for amt. With kindest regards to your wife & requesting that you call on me whenever.

I can in any way serve you -
I am very truly yrs
Hugh J. White
