L. L. STATON, PRESIDENT.
E. V. ZOELLER, SECY AND TREAS.
ELIAS CARR, JR., SUPERINTENDENT.

Tarboro, N. C., May 29 1889

Dear Professor,

I have no doubt you are now rather more lve
sick than sea-sick after seeing sweet Annie; but I have
no doubt but that a few hours judiciously spent at Bell
Browns, will help you out immensely. Everything here all
the same as usual and O.K so far. Doctor has hauled
away the compost heaps and most of the stinking bulls.
I have not ^{seen} anything further of Jims Mayo or his team.
I sent off Jigger tonight, so I have only Urige and
Uriah left. The compost heap covered half the corn and

I have put meal on the other half. I started to bear off
the balancer of the corn this evening, but Docter had a call
to Palmyra and wanted 'Hona' to drive. Flowers had the two
mules to his mower and thought I would not disturb him.
Will finish the corn first thing in the morning. No news
at all, have seen no one to-day, except Oct. Battie and
Austin Williams who were driving up to 'Kill Quick'. Took
'Bontsey' up this a. m. and put it in the mill, but think I
will soon have to put it down again, as the tanks keep
on leaking. I enclose you a letter from Michael. a
parcel came for you last night from Pier.

Good night

Yours truly

E. R. & J. J. J.
