Dear Sirs & Bros

Under our constitution as amended can we not retain a farmer & merchant whose income is derived almost entirely, (about 9/10) from his farm.

The above also refers to a country doctor who keeps drugs and confectionaries &c in a small way being a partner in the drug business with a minor son.

Both the gentlemen depend to have been good, worthy, working members of our order, having filled at different times the offices of Pres, Vice Pres, Secy & Lecturer and are now in full sympathy with our Alliance in all its plans. They have taken withdrawal cards until the decision of the proper authority can be heard.
