Elias Carr Esqr
Old Spout

N.C.

Dear Sir

I see your name occasionally mentioned in connection with the nomination for Congress in this district. If you want the place I am sure you can get the nomination and be elected, enough negroes have left this district to make it safely democratic. You are a representative farmer and it seems to me the farmers ought not in a while at least to have some of the political honors.

The election of farmers to office will surely make a very deep impression on the politicians who are always watching to see which way the cat is going to jump. It will make them work for the reforms demanded by the Alliance.

London 11th
Nov 1871

My dear Sir

Thank you

I am very much interested
in the results of the
experiments you have made
on the effect of the
various gases on the
combustion of the
candle. It is very
interesting to see that
the rate of combustion
is affected by the
presence of the
different gases. I
am sure that your
experiments will be
of great value in
determining the
true nature of the
combustion process.

The results of your
experiments are very
interesting and will
be of great value in
determining the
true nature of the
combustion process.

Hope you will enter the field and that
riding will perch upon your banner

Yours Truly
H. O. Hyatt.

Handwritten text at the top of the page, possibly a title or header, which is mostly illegible due to fading.

Handwritten text in the upper middle section, appearing to be a signature or a specific note.

A small handwritten mark or symbol, possibly a date or a reference number.

Main body of handwritten text, consisting of several lines of cursive script that are very faint and difficult to decipher.
