My dear Carr

I send you in
the rough form for ruling that
will cover the case. I am
not positive that it is sound
and if he was not farming
know it would not, It will
not do to receive ^{R.R.} labors, as
such. they will be spent in
our midst

I see the names of the R.R.
Am^d in the paper to day. I
think they will do, Wilson is
certainly acceptable to the
Rail Road. I hope however
Mason & B may be able to
cope with him,
Now we must have a good

man in Reddingfield's place
as Secretary - This is very
important,
The order is in good trim in
this section - but we have
an element in Colowell and
Watonage who wish to make
the organization a tool of party
but I think they are losing
ground -

With best wishes

If the section master is engaged in farming - his employment by the R.R., would not disqualify him - as the State by establishing a R.R. Com, will protect its citizens from injury by R.R. incorporations - and it is not believed he could be used for our injury -
