Gentlemen. In reply to your favor with check 66" and thickness,  
our No 18. will lay 24" Centers if desired, also No 19. This  
style is best for riding and covers just 24" Centers  
You can view our Munday at our Exposed Low  
Much you need and what length of sheet needed  
and we can ship Munday with the others order  
on Page 44. we say it covers (No 18.) 25" after lapping but if  
You desire it to cover only 24" we can make it just  
24" to fit cladding trusting you can favor us with  
the balance of order Very truly
