

AYER, N.

The National Legislative Council
N. F. A. and I. U.

Washington, D. C., March 31., 1891.

My Dear Sir and Bro:--

I send you under another enclosure, by to-days mail a letter issued by the Reform Press Bureau. This Bureau was established with a view of gathering from all sections of the Union, news and data concerning the Alliance and the Reform movement, and disseminating it to all our papers from a common centre. Another design is to diffuse information on current matters throughout our organization and throughout the country at large. The Bureau was left self sustaining; and the letters being sent out are charged for at the rate of fifty cents per week. You can easily see what a power for good this Bureau can be of to the support of our leading Alliance and Reform papers can be secured. Can you intrust yourself so far as to suggest to your State papers that they take these weekly letters? The work is so expensive, and to be conducted properly ought to have a liberal support.

Please think this matter over, and when you shall have time, kindly let me know of the probability of enlisting the active support of your State papers.

Yours truly and fraternally.

H. W. Ayer.
