New York, April 2nd, 1891 *189*

Elias Card & Son.

Old Sparta, N.C.

Gentlemen:-

In reply to yours of the 31st. ult. just received, City Crushed Linseed Oil Raw, is selling today for 57 cts per gal. in bbls. Boiled Oil is 3 cts. per gal. higher. . We think Western Oil ranges a cent or two a gallon less. We ourselves purchase City Crushed Linseed Oil of

Messrs. Campbell & Thayer #89 Maiden Lane, N.Y. and
The Dean Linseed Oil Co. #181 Front St. N.Y.

Linseed Oil is sold on 30 days net cash on approved credit and you can buy of the manufacturers as low as we can. We are in the habit of furnishing our customers with Linseed Oil at the regular prices of the City crushers, but we make nothing on it and do not seek the trade outside of the people who handle our goods and only care for it there, because we wish our Paints thinned with Oil of the very best quality.

If you are using Paints, we should be pleased to correspond with you further in regard to the sale and use of our goods. The Chilton Paints are made with the choicest Linseed Oil and all shades are mixed and ground by machinery seven times. They are measured by the U.S. Standard gallon.

Thanking you for the inquiry, we are,

Yours truly,

*W.P. Bennett
Treas.*
