

EXECUTIVE COMMITTEE

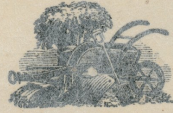

NORTH CAROLINA FARMERS' STATE ALLIANCE,

Charlotte, N. C., April 13th 1891

Bro Carr

Bro Terrell was here Saturday - his expenses was more than I calculated on - partly caused by the State Secretary making bad routes - many places made on Railroads that he had to travel in buggy - also in running him back and forward across his track. He reports dissatisfaction with the Progressive Farmer for not supporting the Sub Treasury. Also says Cade is not in favor of " " and that he (Cade) told somebody (I forget the name) in Incline that Polk was not in favor of Sub Treasury. I think an effort will be made to trim the Sub Treasury down to suit the Democratic party by "somebody" who wants office. He named no one - I told him that the timing of the Railroad demand at Ocala opened the door and I would not be surprised that the Economist almost ignored the other demands and many members noticed it. He thinks the Progressive Farmer

EXECUTIVE COMMITTEE

NORTH CAROLINA FARMERS' STATE ALLIANCE,

should be made to "sight into Hall" as the State
Chronicle and other papers have published. Holt says
I says Sam. Dixon of Texas gave Sledge a paper
writing at Ocala that he (Dixon) know nothing
whatever against his integrity or against him
as a gentleman - &c. &c.

If you will make the race for Governor - you
must let us know it. Holt's position will make
him strong - but he never can be elected - Sander-
-lin is beating the bush and stirring the bap-
-tist waters - I believe we can nominate you
and elect you - I learned in Washington that
A B Andrews said that the railroad people
would vote for a negro before one who favored
a Railroad Commission - no doubt the R R's
will do their utmost for Tom Holt - he has al-
-ways stuck to them - but we can win and
we must win - The six extreme western delegates
to state alliance will cost more than the delegates
to Ocala - a few more meetings on the border will
bust us - 7th nationally J. B. Alexander
