*Sir.*

Can you give me  
any information as to cultivation & value  
of the White Vetch. when I can get  
some seed. & quantity to be sowed to  
the acre.

When should it be put in. &  
how does it compare with Red Clover.  
Does it improve land. or is it a drain  
on the soil.

Any information you can  
give me, will be gratefully received &  
appreciated. I think that it is a  
popular crop in your section for  
winter grazing hay.

*Yours truly*

*W. D. Reynolds*
