

KNIGHTS OF LABOR

OFFICE OF STATE SECRETARY-TREASURER.

Raleigh, N. C., Sept 15th 1890.

Hon Elias Carr

Dear Sir

I am in receipt of your favor of 11th inst, and have noticed contents, Replying to your question, would say that as a member of the Knights of Labor I accepted in good faith, the Davis agreement and its my purpose as a party to that agreement, to endeavor to carry it out, If I could leave my office down in the district, no doubt but would give you much effective aid, But it is not in my power for me to do so, without putting some one in my place at a heavy expence, and this I can but ill afford to do. I have already written two or three letters to parties, who wanted to know what they should do in these letters my position was clearly defined, and too plain to be misunderstood. In my correspondence I can do something, yet it dont have that effect every time, that a personal visit would have. I shall so far as my influence will

the importance of carrying out the agreement.
As my position with our order is rather delicate
one, and as your question was asked in strict
confidence, I trust the answer will be thus.

Yrs truly
Geo. L. Tomoffski
