lished in this city. My article
Country Homes was in defence
Alliance - what I stated was
thought it my duty to say
as the mouth piece of the order up
What say you? Ewert is said to have
been practicing lawyer up to the time
he was sent to Congress & I heard him say
he was a member of the all. & did
not have to fire up his law in
I also learn from good

used good deal of persuasion & undue
influences to get into Wood Creek al-
liance in Henderson Co. & being a Red-
head vicinity & believing his connection
with the order will help him back to Congress
getting some Democratic votes they let him
remain in it. He is certainly using the order
in votes. I have met Crawford

of the order & its principles but has never
only had license a few months
to Ewart for an explanation also
if he favors our demands, I will
reply to the falsehoods in this their organ
and have asked a reply in same paper. I am
determined to defend the Alliance. Any sug-
gestion would be unobjectionable & you might
be interested. The Democratic paper
highly for Ewart for having
his chance -
