

OFFICE OF
REFORM PRESS BUREAU,

344 D Street N. W.

WASHINGTON, D. C., JULY 21, 1891.

DEAR SIR AND BROTHER:

I enclose you copy of a circular which is being sent all over the country by The State, an Alliance paper of St. Paul, Minn. You will note that the circular treats of wheat, and comes from one of the greatest wheat growing states in the Union. One million of them will be distributed during the next thirty days with the assistance of the Alliance Press Bureau of Information. The circular commended itself to me as containing information which would be of value to any and every farmer in the country, and as manager of the Alliance Press Bureau of Information I am unhesitatingly giving all the aid I can in its distribution.

If the farmers generally or even partially shall decide to act on the suggestions offered, it is my honest belief that they will in a few days begin to realize a fuller value for their wheat than they have secured for a long time. A perusal of the circular will convince you of its fairness and conservatism, and after considerable study of the matter, I believe it may be relied on as a safe basis for action. Several thousand are being sent out to-day, and this copy is sent you that you may know what is being done, and that you may have time to read and study it in order that you may be able to consult with any one who may ask you about it. If you think you can use any of them to advantage, you may order as many as you want by telegraph or mail, and they will be promptly sent you. Mutual conference and concentration on this matter, I believe, will be generally beneficial. The Farmers beat the "jute trust" two years ago by united action, and if they will, they can beat the speculators who are now in power, and keeping the price of wheat unnaturally low.

Yours truly and fraternally,

H. W. AYER,

Manager Reform Press Bureau.
