LOUISVILLE, KY. Nov, 3rd, '91,

Elias Carr & Son.

Old Sparta, N.C.

Gentlemen:-

We have your letter 29th ult addressed to Cherry, Morrow & Co., and covering order for a set of skeins and boxes for 2 horse wagon, the skeins on which seems to have been originally 3 x 8. If the old skeins have been accurately measured and diameter is 3 inches at the butt end, just in front of the shoulder, the probabilities are it is a regular 3 inch wagon, but in that case, we think you will find the length 9 inches, between the shoulder and inside of nut when the latter is screwed up tight.

It would be better perhaps to satisfy yourselves on this point before directing shipment and it is not improbable the descriptive list on page 17 in our catalogue will assist you in determining the size.

The 3 inch skeins are worth \$3 per set net cash F.O.B here and the 2 3/4 which is next size smaller, and 8 1/2 inches long, \$2.50 per set.

We mail you today a copy of the catalogue referred to and direct your attention to the announcement on page 3 which is self explanatory.

Yours truly,

KENTUCKY WAGON MFG. CO.,

Thos. Malone Treas'r.
