No. 301 Exchange Place,

P. O. BOX 333.

COR. SOUTH STREET.

Baltimore, *Feb. 24<sup>th</sup>* 1892

*Mess. Elias Carr & Co*

*Old Sparto Md.*

*Gentlemen,*

*A close inspection of the State law governing the sale of fertilizers reveals to us that all goods sold in the State, whether to dealer, Agents or consumers, must have an inspection tag affixed to every package.*

*We had a case today in which a Transp. Co. refused to deliver our goods to a consumer, because they were not tagged. Under these circumstances we will have to attach inspection tags to your seven tons Tobacco Fert. with an additional cost to you of 25.¢ per ton as per our letter of 16<sup>th</sup> inst. As there are no vessels offering for Washington it is more than probable that we will act upon your advice of 12<sup>th</sup> inst*

and make steamer shipment on  
April 1<sup>st</sup> of which we will advise  
you later. If you see fit to increase  
your order in the meantime, we should  
be very glad to hear from you.

Awaiting your favors. We are,

Yours very truly  
Goreau & Rittler

for Foster.
