Dear Sir

I am very sorry
that you have taken the
position you have on the
Demands & Recommendation of
the Alliance as I was looking
for you as our next Gov or
Governor Gen. if you had
closely noticed that Rail
Roads & Alien ownership of
Lands, are recommendations
& not demands, you will
see there is a very nice dis-
tinction between the two terms
it certainly throws a damper
on our Ord. wh. such
Men as you to come out
against it. as it gives

our enemies Capital
to work with. when at the
same time it does you no
good. for they are willing
to misrepresent you or any
body else for Party ends

Please don't take any
exceptions to this. as I am
deeply interested in the Order
I look upon the Order as
the only means (if they will
stick) to break the backbone
of the Money oppressor & give
better times to the Laborer
this being my honest belief
is my excuse for this short
letter

Yours. Sincerely

Elias J. Lison
