1008 F STREET N. W.

Washington, D. C., June 9<sup>th</sup> 1892.

Dear Father:

I have not seen Woods today. He will be at the house tonight, & bring probably the information you asked for several days ago. He asked a know ~~all~~ yesterday about the silver question, but from the information he read, I convinced him that he had gotten the wrong pig by the ear, I doubt very much if the correct amt. spent by Hall et al to defeat the Silver Bill can be ~~accurately~~ stated, but its estimated amt. was enormous. I enclose you an acct. of Morgan's speech in the Senate yesterday. He is rapidly coming to the front, & is even now considered one of the most influential

men in that body. He has more than once proved himself a prophet, & the recent action of the 3rd party in Ala. predicted by him several weeks ago, has very much impressed even the Democratic gold bugs, one acknowledging to me today that he had no idea the situation was so serious. "So serious" I replied "then you must have thought the masses of the people consummate liars, which would argue a condition of the country infinitely worse than any financial disaster could possibly bring upon it."

Cal. Paek I understand is better. I will call on him tomorrow.

hastily & affly
