

Madison, Rockingham Co. N.C. June 10/892

Dear Sir

Permit me to tender my congratulations at your nomination to the presidential office a handsome majority - It is somewhat late to do so - This letter is called forth by me from our Congressman A.H. Williams consulting me as to course of conduct towards some of our Alliance brethren - saying he says who is favor of conciliation - I endorse that position heartily

No one ought to be allowed to take part in the canvass who will speak on a different schedule. The Force Bill and general Republican conduct opens a fine field for eloquent denunciations - As to the Alliance demands the proper position is to say that there are so many things needed that it is difficult to tell which ought first to receive attention, the first and foremost object is for all men favoring relief to work together to turn out the Republicans - When that is done we can then have time to agree on what measure of relief shall be first adopted

It is a fine piece for a speaker with no unpleasant
word known to any Alliance man. We have pursued
that policy in Western Rockingham since we all right
and will give you a very handsome vote.

With kind regards to your wife and family
I am
Dear Sir

Gov. Cass
Spartan
N.C.

Sincerely yours
John McCallaway

You may remember having seen me at the Greensboro
meeting some years ago and heard me make
a few remarks - If my memory is correct
you complimented me -
