Lucas Instructed, caused or authorized Adam Warner, the Capt. of the Patrol force, to visit Ocracoke and advise those purchasing oysters at that place, not to have their oysters inspected there and not to pay the inspection fees, the said action of the said Lucas and Warner being illegal, and abuse of the power conferred upon them and tending to promote disturbance and violations of the law.

Lucas has improperly and unlawfully issued an order, purporting to be by authority of the Board of Shell Fish Commissioners, prohibiting the taking of oysters during the coming summer from grounds in less than eight feet of water; and that the said order is not worded in a proper and official manner, but so as to inflame and antagonize the various classes interested in the industry.
