Latis. 5 PM. Have just seen the weather map for today. & there is another great cloud area & rain fare drifting from the west, I suppose it will not clear here for a week or more. Great weather.

Dear Elias:

Never since I have been consulting the weather map have I seen the cloud area so large & the rain so general. Every where in the U.S. it is raining save in southern Cal. southern Texas & S. Florida, & the precipitation moreover has been exceedingly heavy, I trust you have escaped such down pours as Tenn. has experienced. There is nothing new, but the weather, & in a sense that is as old as the hills. The trust has not yet "done" the Great Falls Co, but I am expecting something to drop every minute. All join me in love. Affly Buttm.

He will be able to curb his appetite here
I hope father is better & that
