Dear Elias:

I was in town on
Saturday, but saw nothing of you.
& as I couldn't look you up
without getting a ducking thought
I had better wait & write to you.
Could you make it convenient to
come out some day this week &
show me about the line? I am
looking for the Lumber men
every day & have an engagement
with the Eureka man for Saturday
There too, are some farm matters
I would like to talk to you about
& while talking if you will bring
your gun we might kill a few birds.
If you will let me know what day
you can come, I will either go
